# \*U.S. Cabinet Reportedly Given A Tough Presidential Warning

By Jack Nelson

WASHINGTON, April 21—President Carter, concerned over the growing public perception that he is a weak chief executive, looked grim as he laid the law down to his senior aides and Cabinet members.

"Once a decision is made," a senior aide quoted Mr. Carter as saying, "I will not tolerate opposition or unenthusiastic support from people involved in that decision."

Now, if a Cabinet member speaks out in contradiction to a Carter policy, the aide said, "I would expect to see him called into the Oval Office. And if he does it again, I would expect to see him on the street

Mr. Carter's lecture, delivered during ses-sions held Sunday and Monday at Camp David, was an extraordinary departure from his normal style of soft-pedaling any criticism of subordinates. It represents part of a White House effort to exert more control over the Cabinet and make agencies and departments more responsive to the President's policies.

The weekend meeting at Camp David was the first such session that Mr. Carter has held that with his Cabinet and senior aides since he entered the White House, and what transpired has home General Griffin Bell has spoken for the record trains thus far and most of those who attended have been reluctant to talk about the meeting.

### Blunt Lecture

aby of ( Although the aide emphasized that Mr. he build, Carter solicited and listened to criticism of his in the presidency from Cabinet members, it was clear where is that Mr. Carter lectured both aides and Cabi-400 tag net members in imusually blunt terms about The far their obligation to support his policies and pro-

and m; "The President gave us a going over in good atteness style. It was friendly, but exceedingly frank and in hard lasted about 45 mintes," Mr. Bell said.

Plans for implementing Mr. Carter's new aption ... In the past, Treasury Secretary Michael Blu-

menthal, Health, Education and Welfare Secre-11 11 Ittary Joseph Califano jr., and Housing and Urban Development Secretary Patricia Roberts
Harris have been criticized by White House officials for acting in contradiction to White AD House policies.

However, Mr. Carter went around the table in his criticism at Camp David, citing cases in every department where he felt his policies had been undercut. "The President must have gone to some pain to collect all the examples," an

Mr. Carter also warned the Cabinet about supporting his budget; said the aide, who quoted the President as saying, "You have the re-sponsibility and if you have anyone who is un-dercutting me on the hudget. I'm going to call you up and expect you in do something about

The lecturing did not come easy for Mr. Carter, said an aide who also was on his staff

when he was governor of Georgia.

"He's got so much self-discipline that he thinks everyone else ought to just do the right thing and not have to be told what to dn. But he found in Atlanta, and he's finding here, ther everyone's not as disciplined as he is and every now and then he has to dn some ass kicking as preventative medicine if nothing else."

On another matter Mr. Carter indicated that to strengthen his presidency, he will be more political in the future, granting or withhulding favors in accordance with whether members of Congress support or oppose his policies.

He has been criticized frequently for failing to use his political powers to strengthen his

Mr. Carter, according to the aide, empha-sized that he wants Cabinet members still to be directly responsible to him, not to White House staff members. But be said that he wants better coordination of their efforts with White House policies and programs.

Mr. Bell, who is from Georgia and has known Mr. Carter for many years, said that in lecturing the Cabinet, the President was "as strong and determined as I've ever seen him." And Mr. Carter himself described his session with the Cabinet as "candid, intimate and brutal" during a meeting with Democratic congressional leaders, according to Sen. Alan Cranston, D-Calif.

### Critique Session

Both Mr. Bell and Charles Kirbo, Mr. Carter's confidant who attend the Camp David sessions, had met two weeks earlier to hear a critique of the Carter presidency by several advisers to former presidents.

That meeting, arranged by Mr. Kirbo and Robert Strauss, Mr. Carter's international trade representative, was characterized by blunt criti-cism of the Carter presidency, according to several participants.

Among those attending were James Rowe jr., member of former President Franklin Roosevelt's "brain trust"; Harry McPherson jr. and Lloyd Hackler, who served in the Johnson White House; Lloyd Cutler, who was active in the Johnson administration; and Clark Clifford, former defense secretary and adviser to presidents for three decades.

The consensus, according to one source, was that Mr. Carter was in bad political shape and

President Carter

that part of the problem was that he had given away ton much power to the Cabinet and was not getting the support he needed from high-level officials.

"There seemed to be general agreement that Mr. Carter made good decisions," he said, "but that he did not build constituencies for his decisions and did not reach out for a broad enough spectrum of advice."

Mr. Carter has been repeatedly criticized for not bringing in non-Georgians of broader back-ground into his inner circle of advisers. Six of his seven senior White House aides are Georgians, although Mr. Carter just announced the appointment of Democratic party activist Anne Wexler to the senior staff. She currently is deputy under secretary of commerce.

Harry MePherson, now a Washington attorney, said of the Kirbo-Strauss meeting: "As Washington lawyers, we had among us a good deal of experience with various administrations and we talked from that perspective about the things they could do to extend their reach.

"Those things include enlarging the circle from which they draw advice around the country and improvement in their relationship with groups that have supported Democratic administrations in the past."

# Russians Fire on Airliner, 2 Dead in Forced Landing

(AP)—Two passengers were killed and two injured yesterday, when Soviet jet fighters fired at a South Korean passenger jet in Soviet air-space and inreed it to land, President Carter's national security adviser, Zbigniew Brzezinski, said

But a State Department spokes-man said that 13 persons had been injured, two seriously.

Mr. Brzezinski, who did not elab-orate, said that he did not know the

cause of death or the nationalities of the victims. But Japanese sources said that one of the victims was a Japanese citizen.

In Moscow, U.S. Embassy officials said that the Soviet govern-ment has offered to permit a U.S.

civil aircraft to pick up the passen-gers and crew in Murmansk, 230 miles north of the landing site. An embassy spokesman said that no response was made to this invi-tation and denied that the United

### States was playing a middleman role in the incident. U.S. Informed

U.S. sources in Moscow said that J.S. officials were informed by the Russians that the Boeing 707, which landed on a frozen lake, suffered "some damage."

No Americans were reported aboard the plane, which had been bound from Paris to Seoul, with a refueling stop in Anchorage, Alas-

Japanese sources said that Soviet Premier Alexei Kosygin was keeping visiting Japanese Agriculture Minister Ichiro Nakagawa informed on the incident.

They said that the Russians told Mr. Nakagawa that the pilot, after being intercepted by warplanes, tried for two hours to avoid landing before he was forced down on a frezen lake near the town of Kem, 600 miles north of Moscow and 150 miles east of the Finnish border.

The South Korean Foreign Ministry said today that its information indicated that the plane made an emergency landing after it violated Soviet territory, but "not deliber-Tass said that arrangements were

being made for the passengers and crew to leave the Soviet Union. A Korean Airlines spokesman said that an aircraft would arrive tomorrow in Helsinki to pick them up.

### **Orders Not Followed**

"Fighter planes of the Sovie anti-aircraft defenses intercepted the violator," Tass said. "In night-time conditions, using revolutions [maneuvers] of the planes and onboard lights, they repeatedly issued orders to the intruder to follow them in order to land at some near-by airfield. The plane, however, did not respond to these orders and

The announcement made no mention of casualties. Airline officials in Paris said that the plane carried a South Korean crew of 13 and 97 passengers - 35

### Labor Retains Commons Seat

LONDON, April 21 (AP)—Brit ain's ruling Labor party held its Lambeth Central House of Com-

mons seat today m a special elec-tion—but with sharply reduced support in the London district, where some estimates put the immi

grant vote at 25 per cent.
Journalist John Tilley, 36, won
hy a margin of 3,141 over his Conservative rival. Jerry Hanley, compared to Labor's 8,677 edge in the October, 1974, general election. The by-election was a setback for the Liberal party, whose candidate, David Blunt, came in fourth behind the rightist National Front candidate, Helena Steven.

WASHINGTON, April 21 Koreans, 51 Japanese, five French, an administration official, who two British, two West Germans, asked not to be named, said: and two believed in be Chinese.

There was no explanation of why the plane entered Soviet air space, but U.S. administration officials said that radar reports seemed to confirm the intrusion.

"If a plane enters U.S. airspace you tell the plane to land, if it is far enough in. If it doesn't follow your instructions, you may shoot it

In speculating about how the Soviets may have forced the landing.

A special meeting of the National Security Council was convened-

informed of the incident, associate White House press secretary Jerrold Schecter said.

U.S. officials attempted maintain contact with the Soviet and the Seoul governments, which do not maintain diplomatic relations, and to play down the their involvement in efforts to locate the plane.

Soviet militiaman frees Mrs. Irina McClellan (left) and her daughter after they attempted to chain themselves to the U.S. Embassy fence in a protest in Moscow. Soviet authorities refused to allow transmission of photo and it was flown to Frankfurt for dissemination.

COLOGNE, April 21 (AP)-Io an effort to belp needy chil-dren, a West German hotelier today announced what he elaimed was the longest cold buffet in the world.

The 900-yard-long row of ta-The 900-yard-long row of ta-bles loaded with goodies will be strung along a highway tomor-row in Marienheide, a small town northeast of Cologne.

The organizers said the previous record of 800 yards for a cold buffet is held by the Wal-dorf Astoria Hotel in New York

Those wanting to file past the German snack row will be charged 10 marks (about \$5) each for as much as they can

The proceeds will go to Aktion Sorgenkind, an effort resembling the March of Dimes in the United States.

### Swedish Parliament Votes on Succession

STOCKHOLM, April 21 (AP)-The Swedish parliament yesterday voted in favor of female succession to the throne elearing the way for Princess Victoria, born last July, to be the Swedish regent after ber father, King Carl Gustaf, even if she has brothers.

Since the question is constitutional, parliament must vote in fa-vor of female succession twice, with an election in-between. General elections will be held in September, 1979, meaning that the decision can not take effect until January, 1980,

### **Teachers Continue** To Strike in Spain

MADRID, April 21 (AP)—A strike by more than 80,000 elementary school teachers continued today in Spain, leaving an estimated five million students without classes for the fourth day.

Negotiators for the government and the teachers said that a settle-ment in the dispute over salary inment in the dispute over sainty increases was unlikely before next week. The state-paid teachers, joined by private school teachers up to the high school level, asked a 22-per-cent increase to 40,000 pesetas (\$500) moothly.

### **Dutch Trade Deficit**

THE HAGUE, April 21 (Renters)—The Netherlands trade deficit widened to 204 million guilders (about \$92.6 million) in February from 48 million guilders the previous month but was down from a deficit of 438 million guilders a year earlier, the statistics agency said today.

"Where I differ profoundly with

the U.S. was the lukewarm way in which they welcomed the internal

Lord Richard said he left the army because he wanted freedom to comment on British policy in bere today.

> While campaigning unsuccessfully for the House of Commons in 1974, Lord Richard criticized restraints on British soldiers. He told a Conservative party meeting that the army should be able to act forcefully during interrogation of suspects. "Standing against walls, lacking sleep, lack of food, wet and cold treatment, would -if restored

hring amazing results," he said. Lord Richard said these methods "would not be brutality - only illtreatment."

The army's tough interrogation methods were stopped after public

exposure and criticism. Lord Richard, who was unmar-ried, was born in 1948, the second son of the present sixth Marquess of Salisbury. Like his father and most of the male Cecils, Lord Richard was educated at Eton and at Christ Church, Oxford. In 1973 during his army career in Northern Ireland he was mentioned in dispatches - a form of recognition of outstanding service short of a medal award

His late grandfather, the fifth marquess, was a Conservative cabioet minister and champion of white Rhodesian leader Ian Smith.

The Cecils have been a power in British politics for four centuries. Their celebrated Jacobean mansion of Hatfield House, 21 miles from London, was completed in 16I1 by Robert Cecil, the first Earl of Salisbury and prime minister to King

### Russian Satellite Is Plunging to Earth

COLORADO SPRINGS, Colo., April 21 (UPI)—A deteriorating orbit will force a non-nuclear Soviet satellite to re-enter the earth's atmosphere Sunday, but the craft prohably will disintegrate prior to impact, the North American Air Defense Command said today.

policy that he said could destroy cials in a stopover at Pretoria. The South Africa, which he termed "the United States and Britain had one stable country in the subcon-tinent." hoped to arrange an "all-parties" conference on Rhodesia, including guerrilla groups opposed to the set-tlement, but did not succeed. Other top officials spoke even

more bluntly about the widening breach between South Africa and the United States, once this country's most important ally.

### 'Unbridgeable'

"Our differences are so deep and fundamental that the gap is unbridgeable," said a senior offi-cial. "All we can hope for is a modus vivendi, or a point at which relations won't deteriorate further.

"You genuinely, sincerely believe that whites are the villains and oppressors, and blacks are the have-nots and oppressed. Ergo, whites must be removed and blacks must govern.

The latest irritants, as voiced by Mr. Vorster and others, were Mr. Carter's visit to Nigeria and West-ern positions in the talks on the future of Namibia, as well as the Rhodesia issue.

Mr. Vorster said: "There are ever so many African countries whose domestic policies are also very, very different from that of the United States ... that have dictatorships, no press freedom or freedom of any kind, and apparently the U.S. gov-ernment cooperates with these countries and has no quarrel with them. Nigeria is a case in point. But South Africa is condemned. So you

can draw your own conclusion. Other senior officials said that during his trip to Nigeria Mr. Carter had subordinated his con-cern for civil liberties to U.S. energy needs, because Nigeria is the second largest supplier of oil to the United States

### 'Selective Morality'

Speaking of the administration's human rights campaign Mr. Vor-

ster said: "It certainly is a very selective morality, if there are any moral principles involved ... Vance said in the case of the Philippines that American security interests demanded that you overlook certain things. Well, that blows the whole bottom out of your whole policy, if your policy is such a high moral

Previous U.S. administrations, while criticizing apartheid, had al-ways maintained cordial ties to the Pretoria government. Mr. Vorster strongly suggested this is no longer the case, saying "It is clear to me that the present -administration wants to prescribe to South Africa what its internal policies should

On one issue on which the United States and South Africa should be in close accord, the dangers inherent in the growing Soviet-Cuban presence on the continent. Mr. Vorster said: "It is a matter that perand every man concerned about peace in Africa."

But he derided U.S. declarations alarm about Soviet-Cuban actions, most recently in the Horn of Africa. "At times it's very difficult to assess whether it's only words, as in the case of the Horn of Africa thing. I don't know that talking about it is going to put a stop to it. Certainly not when you are dealing with the Marxists."

Explaining why be felt the United States was now tilting so decid.

ed States was now tilting so decid-edly toward black Africa, Mr. Vorster said, "It is perfectly clear to me that whereas in the last century you had a scramble for Africa to get physical control ... now it is a question of scrambling for the soul of Africa ... for the votes and for the

trade of Africa." Mr. Vorster's manner was polite but extremely cold. He broke off the interview promptly at the end of the scheduled 30 minutes. Other top South African officials, however, lingered longer and were highly emotional in discussing the prob-

ems with the United States. Many South Africans plainly at-tribute the change in U.S. attitudes toward them largely to Mr. Carter's convictions. "I get the feeling be wants to save my soul by burning me,"one senior official remarked, "and that be will pray while he is

### **Cuba Increases** Africa Presence 66%, U.S. Says

WASHINGTON, April 21 (AP)—The U.S. State Department said yesterday that Cuba's military and civilian personnel in Africa have increased by about 18,000 since November, an increase of 66 Callaghan Sa

per cent. The latest list estimates the number of Cuban military personnel at between 38,000 and 39,000 and civilians at about 6,000, stationed in 13 African countries. Last November the department said there were ber the department said there were 177,000 Cubana on the company of the com

27,000 Cubans on the continent. Much of the increase is attributed to the expanded Cuban pres-ence in Ethiopia, up from 550 per-sonnel to between 16,000 and 17,000 in the past five months.

In Angola, the Cuban presence, estimated at 23,000 to 25,000, has remained essentially unchanged since November

Diplomatic Furor Expected

**Israel Settlements** 

The earth-movers are at work on the occupied West Bank again, preparing ground for new Jewish set-tlers. As usual, the diplomatic re-percussions are expected to make more noise than the diesel engines.

The area being cleared for prefa-bricated civilian housing is near Nebi Salah, about nine miles northwest of Ramailah on the road to Tel Aviv.

Because of the diplomatic furor, Mr. Sharon's Settlement Commit it is likely that settlement activity in the occupied territories generally will be curtailed, although such a policy probably will not be an-nounced by the government. It is also likely that projects that were anthorized six months ago, such as Nebi Salah, will go forward with-out interruption.

The United States has firmly maintained that all Israeli settlements in the occupied territories are illegal and an obstacle to peace. Israel says that Jews should be allowed to settle anywhere in the an-cient biblical land of Israel, most notably in Judea and Samaria, the biblical names for the West Bank.

### **Arab Complaints**

Local Arabs have complained bitterly that the land being cleared helongs to them, and reportedly they have produced documents showing that they have paid taxes on the land to Jordan. The Israelis, however, claim the land was always

The Nebi Salah settlement cannot be considered a new venture, since it is one of six sites that the Israeli government approved in September as part of a compromise with the Gush Emunim (faith bloc), the nationalistic organization dedicated to settling the West Bank ter-ritory captured from Jordan in 1967. Gush Emunim wanted 12 oew settlements, and they were al-

The bishop maintains his actions were all within church law. There, lowed to establish six. The Nebi Salah settlement was among those which Foreign Minisever, that the court was trying to ter Mosbe Dayan discussed with President Carter in September, Mr. Dayan reportedly assured Mr. Carter that the settlements would be restricted to Israeli military installations for the time being. There was some disagreement afterward whether Mr. Dayan had said that this policy would remain in effect until the end of the year, or for one

Although Israel refused to halt settlements on the West Bank, the Israeli Cabinet decided in February oot to begin any new settlements in the Sinai, which by then Israel had offered to return to Egypt in ex-change for a peace treaty. The gov-ernment said, however, that it would continue to beef up existing Sinai settlements. A recent Israeli television report said that 270 families would be moving into the northern Sinai in the summer. That would undoubtedly complicate relations between the United States and Israel.

### Weizman Condition

Construction on the Nebi Salah site was about to begin early last month when Defense Minister Ezer Weizman was in the United States and Prime Minister Menachem Begin was about to leave Israel for his talks with Mr. Carter. In a telephone call to Mr. Begin, Gen. Weizman insisted that no land clearing operations start while he was in the United States. Gen. Weizman later denied that he threatened to resign, but he said that he "put his foot down quite

hard. But his objection was connected more to the fact that he was in the middle of delicate talks with the United States, rather than any objection to the Nebi Salah settlement, which had already been approved by the government Last week, Gen. Weizman lifted the temporary ban and land clearing

In spite of the work on the Nebi Salam project, there is some evidence to suggest that Israel may be restricting its settlement policy in occupied territories. There has been a long-standing dispute between Gen. Weizman, who believes that settlement activity should be curtailed during negotiations with the Egyptians, and Argicultural Minis-ter Ariel Sharon, who believes that

JERUSALEM, April 21 (WP) the occupied territories should be colonized as quickly as possible.

According to the authoritative newspaper Haaretz, the govern-ment recently decided to refer all decisions concerning new settle-ments to the Ministerial Defense Committee. Previously, the establishment of new settlements has been decided by the Cabinet, hot other questions relating to settlements were within the purview of

The newspaper quotes a senior government source as saying, "This is tantamount to a reduction in the powers of Ariel Sharon in the mat-

er of settlements. The prime minister's office denied that Mr. Sharon's authority had been curbed. But, since the Ministerial Defense Committee has representatives from all coalition factions, it is likely that the net effect will be to curb settlement activity and that Mr. Sharon has, in

fact, lost ground.

It has been hinted privately that
Washington and Cairo have been informed that Israel intends to go slow on settlements in the interest of peace, as long as negotiations are

in progress.

Mr. Begin recently said that, because oegotiations were an open-ended affair, that might take years. If he had made such a promise, and if Israel then wanted to go ahead with a new settlement, it would be tantamount to declaring that negotiations were over, Mr. Begin said. and Israel would never be put in a position of saying that negotiations were at an end.

### Art Stolen In Florence

(Continued from Page 1) year by thousands of tourists. It and Florence's other major gallery, the Uffizi, house some of the richest art collections in the world.

The Rubens work, acquired in 1650 by Florentine Cardinal Leopoldo de Medici, was the most valuable among the paintings stolen. Also stolen were four works

by Cornelis van Poelenburg, two by Paul Bril, two by Gaspare Vanvitel-li and one by Pier Molyn the elder. "The Three Graces" was insured for \$330,000 when it was shipped to Antwerp, Belgium, last year for an exhibition of Rubens works on the 400th anniversary of his birth. "Its value of course is much higher than that insured," said Luciano

Berti, superintendent of fine arts in Florence. It was the fourth attack this mooth on European art works. On April 3, a man slashed Nicolas Poussin's 17th-century painting "Adoration of the Golden Calf" at London's National Gallery. Salvatore Borzi, 27, an Italian resident of London, was arrested and charged

with causing criminal damage to

the work. Officials said that the painting, valued at \$925,000, could be restored. On April 5, a 31-year-old Dutchman, who claimed he was trying to draw attendon to the plight of poor artists, sliced three gashes in a Van Gogh painting in Amsterdam's Municipal Museum. The man, who was not identified, was charged with willfully damaging the paint-ing, "La Berceuse," and later released from eustody. Art experts said there was a 90 per cent chance

that the work, valued between \$425,000 and \$850,000, could be On April 11, vandals smeared two paintings at the Staedel Muse-um in Frankfurt with a colorless paste that caused the oil to run. Experts were trying to determine whether they could restore the two damaged art works, "Joyful Company," by 17th-century Dutch master Hals, and a 15th-century vicious has a proposery Spanish triptych by an unknown Spanish

Other art thefts in Italy in the 1970s included two raids against the modern art museum in Milan and the theft of two masterpieces by Piero della Francesca and one Raphael from the Ducal Palace Urbino. The paintings stolen in Milan and Urbino were later recov-

**Bid for Unified Cabinet** 

Is Reported in Lebanon

BEIRUT, April 21 (AP)—President Elias Sarkis today moved to program today in consultations

'Erode Support'

Congressional sources said that if the Supreme Court confirmed the President's power to order surveil-lance in the Truong-Humphrey case it "would crode support for

electronic surveillance legislation."

Sen. Edward Kennedy, D-Mass. who was a co-sponsor of the bill, warned his colleagues that "the re-cent prosecution against Humphrey and Truong points out the need for this legislation." Sen. Kennedy said the bill would resolve the constitutional issues "and must be dealt with expeditiously."

A similar bill is expected to

receive final mark-up by members of the House Select Committee on Intelligence and there is pressure to obtain passage during this session of Congress.
Under the terms of the Senate Force will contribute to the force that the Carter administration is

bill, a federal intelligence agency could only install electronic surveil-lance in the United States after a senior official, for example, the di-rector of the CIA, had certified that the purpose of the surveillance was to seek important foreign intelli-

preparing for any outbreak of war in the Gulf. Planning is in the pre-liminary stage, but the force is ex-pected to inclode two Army divi-sions and one from the Marine Corps, with a total of about The attorney general would have to make a finding that the requests meet the standards of the law, then a request for permission to install the device would have to be obtained from one of the judges. The panel would be appointed by the chief justice of the United States.

The standards of how long the surveillance could be maintained would differ depending on whether the target was a U.S. citizen, a foreign national or a foreign embassy or other installation.

### Dissenter's Reason

The lone opponent to the bill in the Senate yesterday, William Scott, R-Va., may have spoken for widespread opinion among intelligence officials when he ooted that opposed the bill because it would inhibit counterintelligence

If the bill were passed even after a Supreme Court ruling supporting the President's power in the Truong case, it would be the prevailing law, according to several legal experts.

Meanwhile, Adm. Stansfield Turner, director of the CIA, told a

House subcommittee that he be-lieves he should have the power to recruit from among people in the news business if emergency conditions dictated it. Adm. Turner testified at hearings

of a subcommittee of the House Select Committee on Intelligence, which is investigating whether the intelligence agencies can properly use members of the media as undercover agents.

Adm. Turner issued a regulation last December that almost rules out recruiting accredited U.S. journalists, for pay or oot, by the CIA. But the regulation left Adm. Turner the right to abrogate it if be saw fit.

### Australia Gives 2 U.S. Women 14 Years for Drug Smuggling

SYDNEY, April 21 (UPI)-Two U.S. women were sentenced today to 14 years in jail for smuggling \$12 million worth of hashish into Australia inside a camper. Vera Todd Hays, 61, and Florice Marie Bessire, 59, both of La Pine, Ore., pleaded guilty to a charge of possessing nearly 2 tons of the drug that Mrs. Hays's stepsoo reportedly told them was "grass for personal use."

In passing sentence, Judge James Staunton said that he was tak-

ing into account the fact the women had led "worthwhile and blameless lives that had earned them the respect" of their hometown. But he said that the court was "obligated to show the dismay and abhorrence of the community as regards such offenses" and to punish them severely.

Federal parcotics agents had kept the pair and their camper-van under surveillance for three months before arresting them Jan. 31 in Gosford, north of Sydney. They found I.9 tons of hashish concealed in plastic bags stuffed in openings of the van's walls and floor. Indge Staunton said that smugglers who recruited the women promised them \$25,000 and an expenses-paid holiday for taking the camper-van from West Germany to Bombay and Australia.

"No doubt the people who had promoted the venture hoped that

the two women would receive less scrutiny from customs agents," be said. The van arrived in Melbourne aboard a freighter on Dec. 5 of last year from Bombay.

### Court Dismisses Charge **Against Spanish Officer**

BARCELONA; April 21 (AP)— ture Ministry and played 39 times. The army's supreme court has before the army closed it in Decembrown out a complaint by four ciber. vilian lawyers that the former head of the Spanish Army falsified an of-Director Albert Boadella and another member of the cast fled ficial record, army legal sources abroad oo the eve of the court-mar-

The charge against Lt. Gen. Francisco Coloma Gallegos, ex-bead of the Army Ministry under the late Generalissimo Francisco Franco and present commander of the Barcelona military region, was dismissed yesterday by the court, the sources said, on grounds that no offense had been found.

The four lawyers, representing Spain's leading pantonime group, charged that the general and his judge-advocate signed warrants for the arrest of the actors after they had been detained.

The members of Els Joglars acting group - three actors and an actress - were sentenced to two years io prison for insulting the army with a play. Gen. Coloma Gallegos ordered the actors oo tri-

### Considered Unprecedented

The charge against him was coosidered unprecedented by army le-gal sources since it came from civilians and was a slap at his authority, normally unquestioned in the case of a regional military commander.

The lawyers representing the actors, meantime, reported that a request for amnesty for the four, in jail since last month, had been refused by army authorities.

The pantomime concerned the 1974 execution by the medieval method of the garrote of a Spanish anarchist and a Polish drifter, both convicted by court-martial and sen-tenced to die when Gen. Coloma Gallegos was army minister. Franco let the sentences stand.

The army claimed that the Els Joglars play depicted court-martial officers as drunken and prejudiced. The pantomime was approved in advance by the government's Cul-

### 50 Prisoners Freed In Chilean Amnesty

SANTIAGO, April 21 (AP)—Fif-ty persons, among those granted amnesty from military prison sentences, were released yesterday.

The government declared the amnesty Wednesday for about

1,200 persons now in exile who were convicted of politically related crimes and for about 280 serving prison terms in Chile.

### Bell Terms Surveillance Probe Finished

NEW HAVEN, Conn., April 21 made recently by Sen. Lowell (UPI)—Attorney General Griffin Weicker, R-Conn. Bell says the recent indictment of three former top FBI officials closes the Justice Department's investigation of illegal surveillance of political radicals in New York.

The federal indicaments of former acting FBI Director Patrick Gray 3d and two aides, Mark Felt and Edward Miller, were handed up last week. The three are charged with ordering illegal break-ins and wiretaps in 1972.

Mr. Bell, speaking yesterday at the Yale Law Journal banquet. said, "The investigation is over as far as the 'New York' break-ins were concerned."

The New York break-ins refer to the FBI's use of alleged illegal tacties to monitor the activities of the Weather Underground a group of political radicals, during the early 1970s.

The attorocy general declined to respond to criticism of the charges

### U.S. Advocates Tighter Rules On Sea Spills

GENEVA, April 21 (UPI)-The United States, citing the Amoco Cadiz oil spill off the French coast, yesterday demanded striet anti-pol-lution regulations as part of an interoational treaty oo the law of the

proposals are ambiguous and inadequate. Coastal states must be givcoastal states must be given firm rights in protecting their coastal waters from pollution users of food stamps. But the federal education and the coastal states must be in jeopardy.

The state has about 1.5 million users of food stamps. But the federal report said that the state estimated that 822,000 more might be elience on the Law of the Sea.

In the U.S. view, Mr. Richardson said, coastal states should be authorized to apply tougher anti-pol-lution standards in their territorial for the open seas. Coastal states should also have

the right to impose punishments other than mooetary penalties for pollution violations, Mr. Richard-

### Filipino Sergeant Kills 3 in Barracks

MANILA, April 21 (AP)—A ser-geant in the Philippine constabu-lary went berserk in his barracks in Cebu yesterday, shot and killed three sleeping troopers, wounded eight and exploded a hand grenade. a spokesman for the national police

The spokesman said that Sgt. Jeremy Baring was found dead after the blast, but the official report from the local commander did not say how he died. Newspaper reports from Cebu, 575 miles southcast of Manila, said that he was shot by other troopers.

he was coocerned that the Justice Department had decided to "selectively prosecute officials of the FBI FBI.

accused of illegal wiretapping."
Sen. Weicker commented after that the government was dropping charges against former FBI super visor John Kearney. Mr. Bell said that higher authorities should be

New York Curbs On Food Stamps

Alleged by U.S. NEW YORK, April 21 (NYT)— The U.S. Department of Agricul-ture yesterday accused New York state of blocking thousands of eligible persons from the federally fi-nanced food-stamp program and denying millions of dollars in reim-bursements to the poor for the ben-

efits they lost. The department's report — charging state and local violations of federal rules in the \$300-milliona-year program — was made public by Rep. Frederick Richmond, D-N.Y., and City Council President U.S. negotiator Elliot Richard-soo said current marine protection state's receipt of \$14.8 million in annual administrative grants would be "in jeopardy."
The state has about 1.5 million

gible, including 371,500 in New York City—and it noted that the city's estimates had run even high-

# Logjam on Cyprus

The leaders of the Greek and Turkish Cypriots-Spyros Kyprianou and Rauf Denktash—have failed to agree during the exchange of ideas on a settlement conducted by the UN secretary-general, Kurt Waldheim. Mr. Denktash says his proposals were rejected because the Greek Cypriots want to give their supporters in the United States grounds to maintain the arms embargo against Turkey. Mr. Kyprianou replies that it is because Mr. Denktash offered to return so little of the Cypriot territory held by Turkish troops and because he believes the Turkish offer to be aimed at permanently splitting the island.

There is probably some truth in both of these positions—but Mr. Kyprianou's is stronger. True, it was a Greek Cypriot coup that brought the Turkish troops in originally-but this is hardly a sufficient excuse for the Turks to hang on to more than a third of Cyprus when the Turkish population there is less than a fifth of the total. And it is to be questioned whether a permanent division of the two peoples on the island will bring any more peace than did the similar divisions of

This will, doubtless, be used by wbat Mr. Denktasb calls the 'Greek lohby' in Washington to oppose resumption of arms shipments to Turkey, just as the original invasion provided justification for imposing the embargo on weapons. The White House believes that it was the embargo that delayed any negotiation over the Turkish military presence in Cyprus. Now there has been some bargaining under UN auspices. But do the results strengthen the Carter administration argument?

For the United States and NATO, of course, much more than Cyprus is involved. Greece and Turkey are strategic gateposts to the Mediterranean from the Soviet Black Sea and they have, for many years, been prizes of war and diplomacy, much sought by the powers. For both, this experience has been a grueling one—to be belped or assailed by Britain and West Germany, Austria and Italy, the Soviet Union and the United States. in addition to suffering the wastage of the battles of the Balkan peoples against the Turks (and each other) comprises a long, sad

Yet neither Turkey nor Greece can hope to bow out of this constant tension, especially if they continue to be daggers drawn with one another. For a time, after the Communists were repelled from Greece and the Soviet Union had to turn its eyes away from Istanbul and the Dardanelles, the two states could enjoy a relatively peaceful relationship within NATO. To break that up permanently would be to risk far greater danger of enforced submission for both Greece and Turkey than is implied in the NATO bond-and, in all probability, to fight one another. It is time to break the logiam on Cyprus—the Turks and Greeks there, as well as those on the mainland, have far more to gain that way than they would bope for in continued confrontation with themselves or their allies.

'These Things Are Absolutely Necessary to Conduct Business—Unless We Have to Pay For Them.

# Convoy to Economic Recovery

International Opinion

In the International Edition

Prime Minister Callaghan of Britain appears to have won some support for his effort to compromise differences among industrial democracies about how to spur recovery from their worst recession since the 1930s. Without awaiting the economic summit next July, the major countries are each contemplating action in one or more of five fields: tax cuts and other means of stimulus, currency stabilization, energy conservation, trade liberalization and increased capital flow to the poor countries. This coordinated appoach is long overdue.

As Mr. Callaghan has rightly suggested, the psychological impact of these measures can be just as important as the economic. The impression of joint commitment, he argues, could encourage businessmen to invest and governments to take action they would not take on their own. President Carter's anti-inflation program, Britain's stimulative budget, the Common Market growth target of 4.5 per cent by mid-1979over double last year's-have been heralded as, in Mr. Carter's words, "part of a wider international effort by major industrial nations to promote world recovery in 1978."

The Callaghan proposal seeks to end a year of wrangling. Bonn's trade partners believe the weight of West Germany's lagging economy is holding back the rest of Europe. Bonn argues that it is the decline of the dollar that impedes West German growth by lifting the mark and prices of West German exports to less competitive levels.

The Callaghan plan attempts to respond to both views. It calls for the United States to strengthen the dollar by curbing inflation and oil imports while maintaining growth. To appease the reluctant West Germans, Mr. Callaghan would abandon the so-called "locomotive" scheme for recovery, which

mitments.

calls for West Germany, the United States and Japan to expand first and increase imports to pull weaker industrial countries out of recession. Instead, following suggestions already made by others, Mr. Callaghan would assure Bonn, too, of a growing export market-through simultaneous expansion by Britain, France, Italy and other weaker economies. This is the so-called "convoy" approach, to move all the industrial democracies forward together.

There has already been movement in that direction. What is chiefly awaited now is West Germany's response. Chancellor Schmidt so far has been noncommittal, but he acknowledged last week-while denying any West German commitment-that under the new Common Market growth target, "every member country is supposed to contribute to appropriate stimulation of the economy." He has begun to hint that Bonn's growth forecast, 3.5 per cent this year, is again not being achieved-for the third year in a row. After supporting Mr. Schmidt's obduracy for months, the West German employers' federation has just called for more economic stimulus and Mr. Schmidt's trade union supporters are increasingly concerned about unemployment.

In short, a context may be taking shape in which West German cooperation appears increasingly likely. The Carter-Schmidt feud of the past year has been put on ice by mutual agreement. Washington is leaving it to West Germany's Common Market partners to win Bonn's participation in the "convoy." But convoys bave a disadvantage. They move at the speed of the slowest ship. Although the approach has changed, the basic problem remains: Will Germany move faster?

### Carter's Nightmare

By James Reston

WASHINGTON—If the Senate of the United States had rejected the Panama treaty, the Carter administration was ready with a series of actions designed to minimize the damage. The con-tingency plan was as follows:

 Immediately after a negative vote in the Senate, President Carter planned to summon the Senate leaders of both parties to meet with him in the Oval Office to consider the military and political conse-

 That same evening, the President planned a brief televised statement to the nation, including an appeal to the Panamanians to maintain order and avoid any provocative moves on the Canal Zone.

 An air and sea lift of military reinforcements was planned in case the U.S. troops in the Canal Zone were not able to handle big demonstrations of acts of sabolage

· All U.S. diplomatic missions in Latin America would have been placed on alert, though it was assumed in Washington, regardless of precautions, that several of them would have been firebombed.

 It was also planned that on the night of the vote, the President would take the Senate leaders to the National Security Council's Sit-uation Room in the White House for a more detailed briefing on the situation by Zbigniew Brzezinski, head of the NSC, and by Adm. Turner of the CIA and Joint Chiefs

of Staff. Squeak Through

Since the treaty did finally squeak through with 68 votes, all this may seem a little melodramat-ic. The administration did think or at least hope that two or three sena tors would come forward and vote for the treaty, regardless of their own doubts and political risks, but only if their votes were essential to assure passage of the treaty. Carter could not count on this, however, and therefore had to consider what to do if the Senate failed to ratify.

It is only by talking to officials who had to plan for defeat of the treaty that you understand the anxiety of this administration about the erosion of its authority and the decline of the President's public

support.

They had no doubt that there would have been a wild emotional convulsion by the Panamanians if the treaty had been rejected, or any doubt that U.S. troops on the ground, with air and sea reinforcements if necessary, could bave re-stored order. But there were serious doubts here that this could have been done without the sabotage of the canal, and without casualties leading to anti-U.S. demonstrations all over Latin America.

Even this, however, was not the main concern of the President and his principal aides. There is now a kind of nightmare in this city. Lyn-don Johnson retired from the White House because he lost public support over his Vietnam policy. Richard Nixon was driven from office by his efforts to impose presidential power at the Watergate. Jerry Ford was an unelected president with an unelected vice-presi-dent, and lacking popular support, had to govern by veto.

Weakened

The nightmare in the Carter administration on the night of the Panama vote was that a dramatie defeat on the treaty, followed by bitter recriminations between the White House and the Congress at home, and violent anti-U.S. demonstrations abroad, would certainly have weakened Carter in the critical negotiations coming up over arms control with the Soviet Union, economic control in the

July summit meeting of the indus-trial nations in West Germany, and peace in the Middle East and in years 10 go, and that the United States didn't need one more crippled president,

So this was not a vote of confidence in Carter, even by his party It is not easy to explain wby twothirds of senators voted for the in the Senate. It was a suspended Panama treaty when most of them sentence. He was getting into deep thought two-thirds of the voters in their states were against it. Some tic Alliance, and in his negotiations voted for it on moral reasons, beon the most alarming problems of world affairs. Recently he has not merely been criticized but battered and right thing to do. Many equally by the U.S. press, whose judgments that he is an "indecisive, moralistic, rejected loser" have been picked up by the newspapers in the free world, and savaged by the Communist propaganda apparatus.

But if executions seemed in iconconcerned senators voted against it because they thought it was not ei-ther right or fair. Nobody voted for it because it was popular, particu-larly if he was up for re-election in

But if everything seemed in jeopardy here on the Panama treaty for a few days, nothing has been irretrievably lost. The close call on Panama has forced a reappraisal by Carter of his methods his Cabinet. Carter of his methods, his Cabinet, defeated in the November elec- his White House staff, and his tions, at least a few of them, maybe priorities. The Panama "victory," if even a decisive few, voted on wider that's the right word, has given him historie grounds, and decided that some time, and the question now is Jimmy Carter still had almost three what he'll do with it.

day and night, if that's what's needed to get scientific results. "We cannot demand that scientists and technicians—or, at any rate, the overwhelming majority of themstudy a lot of political and theoretical books, participate in numerous social activities and attend many meetings not related to their work," Teng said, adding that "the basic task of research institutes is to produce scientific results and train scientific people." Basic research, he said, should not be held to close account for practical results, and "we should give the directors of reentists should be judged by their scientific output and nothing else. It was a vintage plea from the ar-chives of scientific independence, contending, as it did, that scientists are the best judges of science—a thesis perilous to propound in America's present-day anti-authoritarian mood. Where and by whom,

China Acts to Close

Its Gap in Sciences

By Daniel S. Greenberg

WASHINGTON—The text might have been written by

a committee of U.S. university

presidents repeating the often-made pleas for more federal money

and less bureaucratic ensuariment

in the nation's laboratories. Science

is the underpinning of national

strength, it said: scientists are the best judges of what is worth researching; demands for practical-

ity in research are foolish, and sci-

On the Road

planned March 18-31 National Science Conference, which reportedly drew an assemblage of 6,000 for a kind of science policy jamboree unmatched by any similar event in China since 1950.

West. But reports of the conference have now circulated among U.S. China watchers, scientific and oth-

erwise. The general reaction is, first of all, surprise at the scientific fer-vor of the political leadership, whose obcisance to science far ex-

ceeded the stock praise that Marx-

ist rhetoric traditionally extends to

rescarch. And, second, the exami-nation has evoked admiration for the Chinese appraisal of where they now stand scientifically—very low, they candidly acknowledge—and

what they must do to be up to world standards in all fields of re-

search by the year 2000. The answer from on high, and with very little ideological trimming, is that they have to adopt the habits of elitist, bourgeois science, including professorial titles and scientific

prizes, both shunned until recently.

Efforts

Even Party Chairman Hua Kuo-feng, after a few adulatory words about the scientific potential of

millions," declared that "we must

also make vigorous efforts to ex-

pand our contingent of profession-alism." And, following up on that

es un uncir hundreds of

then, were those antiquated notions, then, were those antiquated notions ultered? The answer: in Peking, last month. And not only by scientists, but also by the top political leaders of the People's Republic of China, heirs of a not-so-long-ago Cultural Revolution in which science and its propositioners, were humbled, and should give the directors of re-search institutes a free hand in the work of science and technology ac cording to their division of labor." practioners were bumbled and ballered as elitist and bourgeois in origin and purpose. Reversing the Cultural Revolu-tion's termination of scientific ties tion's termination of scientific ties with other countries, the regime endorsed international links, not only for the buildup period, but, as Hua put it, for all time. "After 10,000 years, we must still learn from others." (The Chinese are already putting that into practice, as is evidenced by scientific ties that they have quietly arranged recently with France, Japan and Romania.) The theme of putting China on the road to a great scientific rennaissance has been sounded in a low key for the past several years. But the ideological stamp of approval and a detailed design awaited the convening of the long-planned March 18-31 National Science Conference, which reportedly

keynote theme. Party Vice-Chairman Teng Hsiao-ping pounded out

the case for leaving science to the

scientists. Attacking the "Gang of Four" for requiring scientists to share in the work of ordinary labor. ers, Teng said, "Scientists and technicians should concentrate their co-

ergy on scientific and technical work," not just most of the time, as other speakers recommended, but day and night, if that's what's need-

### Behind

The Chinese estimate that they are now 15 to 20 years behind the scientific capabilities of the advanced Western nations. With a Though amply reported by China's official news agency, the proceedings of the Congress received little press attention in the massive program of learning from Western science, building up their research institutes, and training thousands of scientists, they say, they can narrow the gap to 10 years by 1985 and be on a par with the world's best by the end of the century. Science, they trumpet, is the key to prowess in defense, agricul-ture and industry—which, indeed, it is. And there is no reason to doubt their determination or their ability to bring their research enerprise up to world standards.

> When that bappens, their voice in world affairs will command a respect that is not now present.

Doubters

ers in the Senate, who voted for it in the end even at the risk of being

But when you talk to the doubt-

I question the wisdom behind the doctrine of The Washington Post's editorial on Cyprus (IHT, March 30). The article was an obvious at-tempt to rationalize the recent policy of the Carter administration on the Cyprus issue by suggesting that the present arms embargo with re-U.S. Congress, paving the way for smoother relations with this NATO partner on the eastern flank of the

Deputy Secretary of State War-ren Christopher has since returned from Ankara providing further sup-port to those who believe that the key to our relations with Turkey is a policy of patronizing forgiveness rather than one based on equal respect of our partnership commit-

Turkey has obviously exercised Turkey has obviously exercised sovereign rights in signing the North Atlantic Treaty, which treaty has been flagrantly violated by the Turkish invasion of Cyprus. These are basic facts that the U.S. Congress cannot ignore. Congress must assume that the Turkish government—then headed by Mr. Ecevil himself—was acting in full understanding of the consequences of this violation, preferring its own this violation, preferring its own natinal interests to the interests of NATO. Therefore, Congress must severely question, rather than con-done, the Turkish action. One must necessarily ask where, in the final analysis, do Turkey's real interests lie? Which side would Turkey choose in the foreseeable confrontations of the big power diplomacy in the Middle East?

If Turkey's natural ally is, in fact, the Soviet Union, rather than the United States, then our anxious efforts at strenthening our partner-ship with Turkey are wasted. At the critical moment, Turkey will not hesitate to turn its back to NATO and cooperate with the Soviet Union. We have, indeed, historical precedents. If, on the contrary, Turkey's overriding interests lie in the Western world, then Turkey will unquestionably remain on our side irrespective of our insistent efforts to have Turkey abide by the partnership rules. Only the Turks can make that decision for them-

For the sake of a proven—therefore more lasting partnership. Turkey should be asked to make that decision now. Turkey should be expected to take immediate steps to restore our confidence in

Questions on Turkey

Turkey's present government, as a responsible force within its own country, before Congress could even consider altering its position on the present arms embargo. Turkey must roll back its invasion, otherwise it would be equally bumiliating for Congress to compromise on the arms issue. One must remember that our NATO partners have been deceived by Turkey. They should not be deceived any further, and Turkey's misdirected nationalism should be curbed, rather than accommodated. Our message to Turkey, and to all concerned, should be loud and clear in this

GARABED K. ARMENIAN.

**Dangers of Morality** A noxious suspicion is in the air:

The President of the United States, Jimmy Carter, may be hesitating to approve production of the neutron bomb due to moral reservations.
Since no president of the United
States since Lincoln, and no other politician of importance anywhere has acted for moral reasons during the past 150 years, the possibility that the most powerful politician in the world may be considering such a regression is indeed unsettling. The rule is that politicians should act only in the national interest and never in the interest of bumanity as a whole. The danger of a president acting morally is that such actions would extend beyond the exclusivi-ry of national selfishness.

President Carter could learn much from Gen. Videla, the chief of the military junta which rules Argentina. In his Easter message to the Argentine people, Videla im-plored them to contemplate the meaning of the passion, death and resurrection of Christ—but such contemplation, he was quick to add, should never be confused with daily political realities and duties. True, Carter denies that his deci-

sion is based on moral considerations, claiming that he intends to use the neutron bomb as a "bargaining chip" in the disarmament talks with the Russians. In spite of the fact that the Russians have aiready categorically rejected any concessions on their part in ex-change for the United States not producing the neutron bomb, thereby making the bargaining-chip argument senseless, all "realistic" observers of the world scene fer- So vently hope that it really is Carter's

motive. At least it is practical and totally devoid of morality.

After all, just think of the consequences if politicians—and oth-

ers-decided to start acting according to moral principles (from Monday to Friday and not just for an bour on Sunday). FRANK T. SMITH.

### Nixon and China

Re the article "Tokyo-Peking Thaw Continues" (IHT, April 11) where the author stated that "President Nixon visited Peking to establish diplomatic relations in 1970." Let me say that the visit rather

aimed at improving relations "generally," as nobody could imagine that such a visit at that time could lead to the establishment of diplomatic relations within a foresecable future—which we all now know. Allow me also to remind you that Mr. Nixon's visit took place in February, 1972, and not in 1970, as Mr. Ishii stated.

ARNE BJORNBERG. Ambassador of Sweden, In Peking, 1969-74. Stockholm.

### World Food Security

Since the 1970s will go down as having produced nothing but words, is it not time to think of entering the 1980s with a plan of ac-tion for a world food security

The fundamental and all-pervad-

ing failure of the United Nations to produce a truly international civil servant, which should have received the highest priority when the organization was created, has painfully undermined its credibility and ideals. The dedicated and competent professionals bave been almost completely supplanted by discarded national civil servants who make a laughing stock out of the saying

of "You get what you pay for." As a consultant to the 1974 World Food Conference, I pleaded that there cannot be any meaning-ful food security arrangement without elevating transport and distri-bution operations to the status of equality among issues for discussion. My message, drowned in e sea of papers vying for the attention of the delegates, did not surface during the conference.

Progress and eventual success require that appropriate commercial interests come in as partners in a. world food security arrangement embracing food aid, emergencies and buffer stocks. As for internaand buffer stocks. As for interna-tional planning and control, no more than 50 professionals al-tached to, say, FAO (which has been regaining some credibility un-der a new director-general) could efficiently administer such an ar-rangement built around a container (which has preclutionized the shift (which has revolutionized the shipping industry) and a UN-flag chartered fleet of ships to move them; no need for expensive grain silos and port facilities. The lack of commercial response can be oxplained but not condoned.
K.J. LOROCH.

### Russia Continuing Work On Plutonium Reactors

By Paul Hofmann

VIENNA, April 21 (NYT)— The Soviet Union has conceded that the use of plutonium in commercial power plants is "hazardous" and may lead to a spreading of nuclear weapons, but indicated it would nevertheless go ahead with the con-troversial technology.

This was disclosed when the min-

utes of an East-West symposium on fast-breeder reactors became available here this week. The gathering of 350 scientists and experts from the sit 23 countries was held in Bologna last week mande.

The chairman of the symposium was the leader of the Soviet delega-tion, Yuri Bagdasarov. He told the conference no attempt should be made to gloss over the potential dangers of the so-called plutonium cycle - employing that man-made element for peace-time productionof energy.

Mr. Bagdasarov was reported to

have said, however, that present en-ergy needs made it "obligatory" to turn to fast-breeder technology involving the use of plutonium as a

Fast breeders are nuclear power reactors that permit more efficient use of uranium — including parts of spent fuel — by producing more fissionable material than they con-sume. Fast breeders are said to be 100 times more efficient than the conventional nuclear-power sta-tions that use natural or enriched

### Hotly Debated in U.S.

Breeder technology is a hntly de-bated issue in the United States. President Carter has opposed construction of an experimental fast-breeder reactor at Clinch River. Tenn., and has repeatedly insisted that nonproliferation — measures in halt the spreading of nuclear reapons - must be an overriding concern in the development of new technologies for more-efficient atomie reactors.

The administration advocates "alternative fuel cycles" to bypass is considering.

### **Carter Reportedly Asks Black Mayor to Join Staff**

By Terence Smith

WASHINGTON, April 21 (NYT)—President Carter has invit-ed Richard Hatcher, the mayor of Gary, Ind., to join the White House staff as an assistant to the President and for liaison with the black com-munity, White House sources said

Mr. Hatcher reportedly is to meet privately with the President at the White House today to discuss the nature of the newly created

If Mr. Hatcher takes the job, he will become the latest in a series of additions to the White House staff. Wednesday, it was announced that plutonium, which is essential for Anne Wexler, a liberal Democrat building nuclear weapons. The use who has been serving as under secof thorium, an element widely retary of commerce, would join the found in nature, is one of the nuclear options that the administration assistant in charge of political liai-

Congressional supporters of the Clinch River project have warned that the United States would fall behind in nuclear-power technolo-

coordination with the rest of the administration and Congress.

In discussing the shuffle, White House aides have conceded the need for a respected, well-known black politician who could improve Mr. Carter's shaky relations with the black community.

Mr. Hatcher, the senior black mayor of a major city and the president of the National Conference of Democratie Mayors, is highly regarded among blacks and political professionals. He was elected in November, 1967, and is in his third term as mayor of Gary.

White House sources said that in recent weeks Mr. Hatcher had discussed the job possibility with Mr. Carter and Hamilton Jordan, the President's top political aide.

Mr. Hatcher is understood to be prepared to take the job if he is convinced that it will be a real poli-cy-making position. There are cur-

### **Techniques Refined by Computers**

# War Games Regain Status as Hobby, Pentagon Tool

By Malcolm W. Browne

WASHINGTON, April 21 (NYT)—Deep in the part of the Pentagon reserved for the Joint Chiefs of Staff is a security door emblazoned with a military crest little known outside the huilding. lts beraldry includes two chess

boards and a computer component. Behind the door, 51 specialists and staff members under the direction of a brigadier general devise models and play games — war games. Their work helps shape national policy.

The war game can be traced to ancient Egypt. But in recent dec-ades, particularly with the advent of computers, war-gaming tech-niques have been refined and adapted for use in many fields, including industry, science, sociology, economics and politics. The war game is even enjoying a surge of popularity as a pastime far ama-teurs in the United States.

The computer revolution has giv-en new power to game theory, and computers now manipulate equa-tinns that symbolize reality in somewhat the same way that com-manders have tested ideas by mov-ing lead soldiers around on a map.

### Popular in '60s

The new techniques at first seemed so promising that many U.S. policymakers in the 1960s perceived them as tools for examining, forecasting and manipulating all kinds of complicated buman situations, but particularly aspects of the Vietnam war.

The enthusiasm for simulations cooled at the end of the war three years ago, but war-gaming and simulatinn seem to be making a come-back. A number of Washington

respondents was Robert McNamara, the secretary of defense in the Kennedy and Johnson administrations, who is now the president of the International Bank

In Reconstruction and Develop-In the early years of the Vietnam war. Mr. McNamara was called a "buman computer" by both critics and admirers, and it was said that he based his decisions chiefly on analyses of statistics. He was criticized for some of his conclusions, including for example, his early as-sumption that the Vietnam war

could be ended by the mid-1960s. Mr. McNamara recently denied that he had relied excessively on

models nr on games.
"I know I have a reputation for emphasis on quantification, per-haps excessive quantification," he said. "But I myself have never be-lieved in the autumatic application of mathematical formulae to events that depend on poorly understood relationships between human beings. It is almost impossible 10 develop factors that properly ex-

press such relationship. One of the developers of games and models on the Victnam war was Herman Kahn, the director and fnunder of the Hudson Insti-tute, a "think tank" specializing in defense contracts.

His guidance and projections, on the basis of which policy was some-times made, did not always stand the test of history. In May, 1968, far example, he told a meeting of the Overseas Press Club of America that an "Arab-Israeli situation could develop in Vietnam, with a permanently tense frontier between North and South Vietnam and a reduction in violence in most of South Viennam "to the level of Cen-

with his sickly king, and then, as others grow jealous, to see his powers crumble so that he becomes a bunted outcast, unceremoniously

Shakespeare, cramming in 50 ears' cataclysmic events of perhaps the nastiest period in English history, takes liberties with actual events for dramatic effect. Some of the immense technical problems defeat him-the subject needed a kind of theater that was oot available for another 300 years.

### Machinations

The wonder is that the plays are as good as they are. The machinations, plot and counterplot of greedy selfish nobles, hardly hampered by a weak and disinterested king, tearing apart a nation for squalid ends, is clear and

engrossing.
For "Henry VI" dramatizes the final collapse of the medieval world of order and certainty and a shift of power in England away from the church and the monarchy. It concerns the betrayal of "the trust of England's honor.

Its most potent presence is death.

greed and treachery. The slaughterseems never-ending.

Hands has a certain comic sport with the play, using a heightened style of acting to achieve an ironic distance from the text. The rivalry between the two most powerful nobles. Gloucester (Graham Crowden) and Beaufort (John Rhys-Davies), becomes a comic duel, with the noise of their skirmishes drowning the voice of an officer reading a proclamation forbidding the carrying of weapons in

Beaufort seems to be modeled on Zero Mostel at his most bombastic, and Alan Howard's King Henry is so meek and childlike, as be turns his toes in and his hands out, as to appear a parody, while Emrys James, as the vigorous and ambi-tious York, plays the role as if he were Richard III rather than merely Richard's father.

The staging is marvelously fluid. the events themselves so breathtakingly vile, as everyone seeks power without responsibility, that the oc-casional andities of the verse do not matter. The audience is swept Nearly every character in the play away by the vigor and panache of the squabbling dukes, continually putting their lives at stake and los ing them,

At the Phoenix Theatre, Royce Ryton's "The Unvarnished Truth" is a one-joke farce involving casua slaughter, which, after the interval begins to be amusing.

Its characters are one-dimension al, anchored in fantasy. But the playing of Tim Brooke-Taylor as an accident-prone author, Graema Garden as a policeman and the author himself as a gibbering literary agent is expertly comic, although the funniest performance is that of Ivor Roberts as a police inspector trying to maintain his dignity. On stage, someone dies from laughing. That is not likely to happen among the audience.

### Label Surprises

### Soviet Smokers

MOSCOW, April 21 (AP)-Sovi et smokers were taken by surprise yesterday when a popular cigarette brand appeared with health warn-ings on its packs, a Soviet newspaper reported.

The account gave no indication of how soon the warnings might be instituted on a regular basis and expanded to cover other cigarette

### THE ART MARKET

# **Old Master Prints Regain Stability**

By Souren Melikian

L ONDON, April 21 (1HT)—The days of wild excitement are over for graphics, classical or modern. Cone are the speculators who sparked a spiraling inflation in the early seventies. The dust has settled and, with things back to normal, old master prints appear once again in be one of the stablest areas of memor a the market.

This came out strongly at Tuesday's auction of "important old master engravings, etchings and woodcuts" held at Christie's.

By and large, the prices paid closely followed those given in the list of estimates printed in the catalogue, a criterion for assessing the lohon The sale offered a good cross-section of major European schools then he from the Flemish Renaissance to hool a late 18th-century Italy and Spain.

Whether the artists were comparatively little known or famous made little difference, except that the former sell closer to the lower estimates while great names generally bring the higher estimates ally bring the higher estimates.

For example, a landscape with

wher is gypsies by Jacob de Gheyn II, which had been given a pre-sale es-imate of £165-£275, was knocked down at £165. De Gheyn, who was born in Antwerp in 1565 and died in The Hague in 1629, was a pupil of the great Hendrik Goltzius. He is best known for his still lifes in the mannerist style, but his engravings are probably his greatest achievement. Familiar as they may be to collectors, they are virtually unknown to the general public.

The landscape sold with two nther engravings was an original composition, rather advanced for its-time. The artist's fine feel for 1331 sele trees was reflected in the superb curving strokes. But it takes a well-

Rome

Morandi, Marino, 43 Piazza Navo-

Those who find Morandi too prop-

er, mild and well mannered had

better take a second look. Only a

profound critical attitude, a steady perception of bitterness and trou-

ble, ceuld lead to such a drive for serenity. In the shadows between

the crotchety outlines of common

household objects, aligned frontally like saints and delineated and crosshatched with stubbornness

and deliberation, hover both resignation and affirmation—an affir-

mation of the exalted in the face of

or Schlemmer in the maze of material. Piscator's earliest stage sets

show him as an interpreter of the

spatial ideas of constructivism.

though his later ones in United

States seem Hollywoodsy. The presentation was probably

conceived in accordance with the

emporary turbulence, it is solemn-

made to accompany the text of one of his familiar gas jets now em-Apollinaire's "Le Bestiaire" offers erges from the ear of another plas-

ter god. There is also the lighted candle illuminating the battle cry of the French Revolution chalked

on a slate. Only a line of children's

sparklers, nailed end to end up a

wall, is new. Lighted at the bottom

at the opening of the show, liery bursts slowly crawled upward for 20 minutes before they sputtered

out at the top, leaving a jagged

charred trace. Among those arrang-

ing settings and situations in galler-

ies, who are loosely termed "conceptual," Kounellis is the least

taxing and tedious, and the most effective in knowingly alluding to

bits of legends and memories bur-

ied in our common cultural past, and he does it in a handsome theat-

rical manner. But his stagings have

been observed in most major group shows of this genre in Europe and

the United States, and, though ele-

gant enough, have become too pre-dietable, even stale.

Di Stasio, La Stanza, 295 Via

Di Siasio, a generation younger than Kounellis, is fresher and funk-ier. In a large space he shows an

assemblage and a large oil painting.

assemblage is made up of Di

ventions and history.

Cayour, Rome, through April.

down-to-earth reality.

na, Rome, through May.

able at a glance, might not bother the layman but they do the collec-tor. On the other hand, the highly conventional scene has no immediate appeal to the nonspecialist. Like De Gheyn's work, it fell between two stools. But thanks to Durer's signature, it nevertheless brought its higher estimate—

other factor that will notch prices up to their higher estimate is rich, pleasing and easily accessible composition. Because salesroom experts assess the value of a print on the basis of its intrinsic merits from the connoisseur's viewpoint-the crispness of the engraving in a giv-en "state," the black and white wentional views of Venice which effect, in addition to the obvious criteria of condition and rarityand never in strictly aesthetic terms, they tend to underestimate

view of a hunt, "La Grande to be pulled down. The classical Chasse," rose to £550—the upper square where it stood was itself delimit of the pre-sale estimate, which stroyed during the systematic was £330-£550. But the more desirable series of 22 sketches of begars, "Les Gueux," done in quick strokes with a dev terseness surof £1,320. The portraits are too cru-forgotten. The latter introduced el and acid, and ton small in for-light effects of his own—a dark mat, therefore not being "decora- foreground with black and white tive" enough, to appeal very much contrasted effects and a softer to the layman.

standards, made just its lower esti-mate, lowed later in the sale. The brilliant landscapes sold close to or even A contrast in pricing was offered above their upper estimates. A by an engraving done by Albrecht Durer in 1511. This, too, was not Canal, better known as Il Canalet impeccably preserved. A short tear to, made 2,420, 50 per cent over the higher estimate. In contrast, a fine impression of Giovanni Battista Tiepolo, "Magicians and Two Boys," rarer but austere, was knocked down at £1,430.

With this reservation concerning aesthetic evaluation, the highly predictable prices of old master prints and the recent stabilization resulting from the withdrawal of speculators make it a perfect field for art lovers with an eve for beauty and

Recause collectors' own criteria are primarily the degree of rarity and the condition, the most beautiful prints are often not the most expensive ones. Bernardo Belloto, who turned out bundreds of conwere so many enlarged picture postcards, would on occasion abandon himself to inspiration and come close to genius.

One of his most interesting pic-The point was aptly illustrated tures shows the old Kreuzkirche by a fine series of engravings by being demolished in the middle of a one of the greatest engravers of all classical square in Dresden. The times, 17th-century French artist church had been badly damaged in Jacques Callot. A fine impressive the Prussian War in 1760 and had strokes with a dry terseness sur- and the impressive Kreuzkirche is passed only by Rembrandt's stud- the picture, which is in the Dresden ies of figures, did not do quite so Staatsgemaldegalerie, and the en-well. The series sold for £1,210, gravings done after it by De Vesme, somewhat below the upper estimate a brilliant French engraver nov backround. At 1,045, the print, which combines artistic achievement and considerable documenta-

printed in black, olive-green, mus-tardy yellow and touches of white, in imitation of a fashionable mannerist type of drawing, could be-bought for less than £300 simply because they are not wildly fashionable.

For example, "The Stigmata of

Some superb Italian woodcuts Saint Francis," after Titian, by Nic-rinted in black, olive-green, mus-colo Boldrini, went for £165. It is a reinterpretacion of Titian's picture and deserves to be regarded as highly original work.

> There are few other fields where great art can still be acquired with

### **Paris**

Persian Miniatures of the 14th, 15th, 16th and 17th Centuries, Galeria Cyrus, 65 Avenue des Champs-Elysees, Paris 8, to May

A collection of 32 miniatures and manuscripts of outstanding quality and charm which, we are told, we cannot appreciate fully if we are oot aware of the unique and intimate link which exists between the illustration and the text. Be this as it may, an incomplete appreciation is quite rewarding, too, and intuition can fill a certain oumber of gaps. The collection now belongs to the Reza-ye Abbasi museum, which opened in Tehran last October.

Jacques Bernar, Galerie Stadler, 51 Rue de Scine, Paris 6, to May 13.

Bernar's approach appears to be derived from a somewhat formal concern which has found a favorable theoretical ground in France io recent years. The result of his work, however, might be described, without invidious intent, as tiedved rococo. The large paintings on cotton have a certain virtuoso sumptuousness to them which, while it is in a predominantly decorative vein, is nonetheless pleasing.

Lourdes Castro, Galerie Jean Briance, 23-25 Rue Guenegaud, Par-

is 6, to May 13.

This exhibition is devoted to works in a variety of media, including drawing Lourdes Castro likes to work with silhouettes and shadows and she has done clever portraits of a number of people, in-cluding curtain-artist Christo, in this technique. One work is a large sheet on which she has embroi-dered by hand the silhouette of a gracefully reclining nude. There are early wooden assemblages, shadow prints of flowers and a monumental print designed to be glued to the wall like wallpaper. When Castro is not playing with opacity, she gives transparency a whirl. One work represents a handbag as seen through an X-ray machine. In all ber work there is a good draftsman's line that moves with fluency

and authority.

### Chinese Display 700-Year-Old Silk Fabrics

TOKYO, April 21 (AP)—More than 300 pieces of silk fabrics and some 80 burial accessories from a tomb of a noble lady of an imperial house dating back 700 years are on display in Foochow, southeast Chi-

The Hsinhua news agency, in re-porting the display today, said the silks and other relies were found in a tomb discovered near Foochow, hich is in Fukien Province.

Hsinhna said it is rare in China to unearth such a large amount of silk fabrics and relies in a fairly good state of preservation. The re ics include linen fabrics, lacquer, bamboo and wooden ware, objects made of born and palm leaves, gold and silver objects, copper and iron

Most of the silk fabrics from the tomb are gauze, followed by spun silk and damask and some muslins and crepes, the agency said. Most gauze and damasks have relief designs, the spun silks and muslims

utensils.

are plain.

Hisinhua said there is a great variety of motifs and designs in the fabrics, which are realistic, unbridled and different from the small and restricted designs in relief found in fabrics of the Han (206 BC-AD 220) and the Tang (6)8 907) dynasties.

"Especially noticeable are the gowns and other costumes, all decorated with colorful laces, most of which are golden, embroidered or have printed floral designs. They show the textile skills and the craftsmanship in dyeing, printing and embroidery at the time. They also furnish important objects for the study of the history of Chinese silk textile trade as well as the eco-

nomic development at that time."

Films and videotapes of the Bach on the piano, and there will be seven popular concerts. Details are available from Festival Internacional de Musica de Barcelona, Forum Musical, e. Amadeu Vives 3, Barcelona 3.

> In Bratislava, Czechoslovakia, Unesco's International Tribune of Young Artists, Oct. 7-21, will present singers, and there will be an exhibition on the life and works of Leos Janacek on the 50th anniver-sary of his death. Czech, Slovak and outside ensembles and artists are scheduled in an extensive operatie, concert and recital program, supplemented by musicological and other conferences. Information may be obtained from Secre-tariat, Palackeho 2, 890 20

Austria's leading festival of the contemporary arts will be held at

\$460,000 for Brooch

LONDON. April 21 (AP)-A brooch of two large emeralds set in diamonds sold for £250,000 (\$460,000), the highest price ever paid for a piece of jewelry at a London auction. Sotheby's reported. The brooch was sold yesterday by the Duke of Northumberland, Hilton Jewelers, a local dealer, bought

Graz from Oct. 7 to mid-November and includes the world premieres of "Orpheus ex Machina," an opera by Ivan Eroed and Peter Daniel Wolfkind, and "Daemmerung," a play by Gerhard Roth, a retrospective in performances and symposia of Alexander Scriabin, and numerous first performances of works for organ, piano, harpsichord, accor-deon and synthesizer. Exhibitions include graphics by Fritz Worruba and lithographs by Giacometti. De-tails are available from Steirischer Herbst, Mandellstrasse 38, 8010

### Brussels

Brussels, through May. Elephants, clowns, dogs jumping through hoops, parrots and mon-keys, all in wild, bright color, bring Appel's Circus to town. Layered wood cutouts, oil paintings, lithos, big sculpted wood figures, lithos, centered on the circus theme make up a flamboyantly raffish exhibition in Appel's happiest vein. A no horrific overtones or showy sex circus addict himself, the artist's symbolism make these genial fanta-obvious enjoyment of capers in the sies in oil, watercolor and prints sawdust ring comes through loud and clear in the endearingly unath-letic-looking dogs, ears dangling as they jump through multicolored they jump through multicolored mensely elongated girl; a plump boops, an elephant dancing a pon-derous jig, a parrot at the wheel of float and fly. It's no surprise to a speeding car. Appel vists the Monte Carlo Circus Festival every December and likes to take in at least one touring circus on his frequent trips to the United States. In this show, his eye for the absurd and for strange distortions, his palette of insistent, leaping color, transform real-life animal and human performers into denizens of the typical Appel upside-down

world with only a hint or two of his earlier monster phase. The prints are presented in two Both autobiographical and facing giant folio volumes contained in a each other, they are also presumably complementing each other. The bly complementing each other. The

other personal impedimenta, blue sand on the seat of a chair and a cardboard rainbow. The oils depict lery. Rue Ernest Allard 43, Brus-

sels, to April 29. This English artist's tiny, neat, clear oils on canvas are landscape mental and conventional as a Victorian potboiler, except that his private parts are exposed and painted current art trend in Britain for gar-blue. This is not disturbing, but it is irritating that Di Stasio seems to tion. Green hedges, spiky fences, will to have his cake and eat it stone and brick walls cutting across too Tone has the suspicion he is a foreground, trees in a field, the ashamed to commit himself to easel sea and flat beaches, all appear painting alone. Still, the whole compressed within tautiy set limits presentation is an interesting alle- as if framed through a camera presentation is an interesting and shutter—tidy glimpses of ecology in miniature. His brushwork is precise and beautifully salebad and beautifully salebad and beautifully salebad and beautifully salebad. artist brought up in a tradition- and beautifully finished; each leaf bound Roman Catholic country and blade of grass has its allotted weighted down by its past art, con- place. Into each work, Anderson inserts a hint of disquiet. A dying brown tree maintains its hold on

Pierre Bassard, Galerie Dautzen-berg, 76 Rue Dautzenberg, Brus-

sels, to April 29. Gentle, unforced surrealism with genuinely attractive fun art. A tiny man with dog's tail perches on a dove to accept a flower from an imlearn that Bassard has written and illustrated a book for children.

Daniel Lang, Gallery Alexandra Monett, 154 Chaussee de Charleroi, Brussels, to May 16. An American painter whose stay

in Britain has led him into the ver-

dant-landscape theme, Daniel Lang paints scenes of greenery and peace often from the same area of countryside as fellow artist David Anderson but from a different optic. Wide skies, wooded flat country with lush meadows, a white-painted gracefully latticed iron bridge spanning a stream, relic of the boom days a century ago when iron foundries flourished in those parts, are expansively painted to give an impression of space without clearcut boundaries. Sometimes the mood changes and with it the whole cadence of painting; the wide and airy skies reappear strong defiant colors, a soft green landscape is sharpened with an infusion of bot yellow or orange. Several exhibitions around Brussels lately have featured the back-tothe land painters, their work most recently restricted to depicting a pleasant, cultivated landscape of formal gardens or green country-

side. One bopes a little turmoil and

a hint of the wilderness outside em-

erges before it all gets too anodyne.

# Japan Adopts Plan To Reduce Surplus

TOKYO, April 21 (Reuters)—Japan today adopted a wide-ranging package of measures—the latest in a series—to help cut the country's bursements.

which reached a record \$14.15 onlion in the last fiscal year—includes
plans to increase official and private imports, increase available import financing and reduce financing costs and step up development

a year from 4 percent. Ine government also plans to sharply increase
the amount of funds available
through the Export-Import Bank's
program from the \$80 million provided so far.

introduce Mey 22 a new yen-based to 10 years, with interest at 6 perimport financing system which will cent annually, one point under curpermit importers to take advantage of lower interest rates on yen loans.

A spokesman said the system provides for foreign-exchange banks to borrow from the central bank at the official discount rate, currently rous metals and aircraft and ships. est rates at around the commercial bank prime rate of 3.75 percent, compared with rates on dollar-im-

than 8.5 percent. The spokesman said the system is being set up to provide special encouragement to importers to shift to yen financing for two rea-sons. The lower financing cost should help achieve the government's aim of boosting imports and help banks gradually reduce their buge short-term external liabilities. which totaled \$27.37 billion at the end of February. The spokesman estimated that about 97 percent of Japan's total imports are financed in dollars, while in other industrialized countries, it is usual for the majority of the financing to be in

majority of the financing to be in the national currency.

Toshio Komolo, Minister of International Tride and Industry, said the package could reduce the current-account surplus by about \$10 billion this year if fully implemented. Economic Planning Director Kiichi Miyazawa said the measures should be intensively implemented in the first half of the current fiscal year to effectively recurrent fiscal year to effectively re-

duce the nation's surpluses. The three-pronged plan aims at stepping up special imports of manufactured goods and raw materials, introduction of new loans to finance imports and measures to ensure lower prices for imported.

### Panel Agrees On Natural Gas Compromise

dea b

NEVA CERLAN

WASHINGTON, April 21 (AP-DJ)-Key House and Senale conferces agreed today on a natural gas compromise that would lift federal price controls from the fuel in January, 1985. Rep. Harley Staggers of West Virginia chairman of the conference, said the proposal—the first breakthrough on President Carter's energy bill in nearly five months—will be presented to an open meeting of all mem-bers of the House-Senate con-

ference committee next week. Although the measure is being criticized by deregulation proponents as not going far enough and liberals as being too generous to the oil and gas industry—conference leaders predicted the full conference

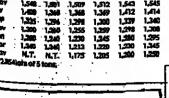

vould approve the proposal. Basic agreement was reached in the early morning hours, as conferees held a 13-hour bargaining session with Energy Secretary James Schlesinger.

Robert Savage has been elected executive vice-president and C.C. Chin has been elected senior vicepresident of American Express Banking Corp. Mr. Savage is re-sponsible for the commercial network while Mr. Chiu specializes in international banking in Asia.

### Loan Set In D-Marks By Denmark Brazil, Finland Plan

Dollar, Yen Issues

LUXEMBOURG, April 21 (Reuters)-Denmark is raising a seven-year Eurocredit of 400 million Deutsche-marks with a split margin over Luxembourg interbank offered rates for DM (Luxibor), informed banking sources said here

The spread will be a percent for the first two years and & for the last five. This compares with a split margin of 14 percent for three years and 14 percent for the final four which the same horrower obtained for a 400 million DM, sevenyear credit raised here last year.

The term Luxibor was first coined for a 100-million DM, sixyear Eurocredit for the Bulgarian Foreign Trade Bank, which was signed here nearly two weeks ago, the sources said. This loan carried a margin of % percent for the first three years and 1 percent for the final three.

The adoption of Luxibor has come as a result of Luxembourg's dominant position on the Euromark market, the sources said.

In London, the Brazilian state shipping company, Sunaman, is raising \$250 million for 10 years with an interest rate margin of 142 percent above London interbank offered rates (Libor) for the dura-tion of the loan, market sources

In Tokyo, the Regional Develop-ment Fund of Finland is negotial-ing a loan of 10 billion yen. Banking sources said the 15-year loan will carry a fixed interest rate of about 8 percent per year.

### **Bonn Favors Deficit Hike As Stimulus**

BONN, April 21 (Reuters)-The West German government, which looks certain to face growing calls for reflation before the July economic summit, favors higher 1979 budget spending rather than tax cuts to stimulate the economy, government sources said today.

A larger than planned increase in next year's federal spending, which would entail a further postpone-ment of the government's aim of consolidating the budget, appears lo be the most likely reaction to signs that the 1978 growth target of 3.5 percent will not be reached,

Some sections of industry and mmerce have ca term tax cuts as the best way of boosting the economy. But Finance Minister Hans Metthoefer, pointing out that 12 billion Deutsche marks worth of tax reductions came into force at the start of the year, doubts whether further cuts would provide an effective method

of increasing demand. The sources said the more likely approach appears to be an increase

### Italy Relaxing **Curb on Buying** In Euromarket

From Wire Dispatches
ROME, April 21—Italy is relax ing certain curbs on the purchase of

foreign securities. Since July 1973, Italians wishin to buy most foreign securities have had to deposit, interest-free, hal the value of the issues bought, in lire, with the central bank.

Investors selling securities pur chased before 1973 had to make de posits if they wished to make new investments. This requirement has been dropped, so long as there is no net disbursement of foreign curren cy. Vittorio Barattieri, economi counsellor to the Foreign Trad Ministry, said today that investor selling foreign securities may us the funds to buy other such issue without making a deposit. The re laxation comes into effect with th publication of a ministerial circu

lar, expected shortly. Investments by Italians in for eign fixed-interest securities (mostly Eurobonds) which could benefit from this measure are estimated t exceed \$1 billion, a senior ministr official said. Eventual repatriation of the investment is ensured by restriction on maturities for ner bond investments, which must no exceed those of the original invest

ment being sold. W. German Insolvencies

WIESBADEN, April 21 -(a) di)-West German corporate inso vencies fell 10.5 percent in Febru-ary from a year earlier to 750, the statistics office said today.

### FINANCIAL NEWS AND NOTES

### **IBM May Buy Memories**

ways manufactured its own semiconductor memory units used in computers, is believed to he shopping units used in computers, is believed to he shopping for memory units in the outside world. Neither IBM nor any of its potennal suppliers in the semiconductor industry has announced or will discuss the prospect. But several prominent semiconductor analysts believe IBM is likely to go "outside" to purchase the units, possibly beginning in late 1979. "It looks as though the need is there on IBM's part," says Benjamin Rosen, of Morgan, Stanley, "A major new opportunity for the semiconductor industry may be opening up." Similarly, Richard King, of Donaldson, Lufkin & Jenrette, says, "An IBM purchase program between 1979 and 1982 should alleviate fears of overcapacity and benefit the whole indusprogram between 1979 and 1982 should alleviate fears of overcapacity and benefit the whole industry." The theorizing is far from one-sided. Kent Logan, of Goldman, Sachs, says the size of the IBM contract for semicondutor memories "may turn out to be disappointingly small." He believes IBM may have another aim in probing outside sources of suppy—assurance of a "backstop" in case its own development of complex memory units falters. He save opment of complex memory units falters. He says that "the industry cannot count on IBM to absorb

### British Ford to Triple Capital Outlays

Ford Motor's U.K. subsidiary, Britain's third-largest exporter with foreign sales of £1.1 billion last year, is planning to spend £1.06 billion through the end of 1981 on a new investment program expand-ing its engine manufacturing capabilities, new tool-ing and new facilities for new models and the installation of sophisticated new machinery and equipment in existing plants. Most of the capital will be generated internally with the balance made up of borrowings and government grants. The latter are

expected to amount to some £125 million. The envisaged annual expenditure of £265 million compares with capital outlays last year of £81 million. The unit's taxed profit last year totaled £116.3 million, up from £59 million a year earlier, on sales of £2.3 billion, up from £1.6 billion.

### Japan's Auto Output a Record

Japan's motor vehicle output hit a new monthly high of 848,567 units in March, up 19.7 percent for the month and 13.1 percent for the year. The Automobile Manufacturers' Association also reports that production in the fiscal year ended in March rose 9 percent to a record 8.78 million units. Passenger car production in March rose 16.1 percent from a year earlier to a record 541,370 units. Production for the fiscal year was up 9.6 percent at 5.62 million units. Exports in the year rose an estimated 21 percent to 4.62 million vehicles but are expected to fall by 1-to-2 percent this year under the voluntary export re-

### W. German Auto Output Sags

West German motor vehicle production in March fell to 367,300 units, down 3 percent from both the preceding month and the year-earlier month, the auiomobile industry association reports. The decline was largely due to a metal workers strike which forced shutdowns of many automobile plants. Auto exports totaled 172,400 units in March, down I percent from a year ago. Auto production in the first quarter totaled 1.05 million units, up 1 percent from the year-ago period, but output of commercial vehicles fell 14 percent to 74,800 units. Auto exports in the first quarter rose 2 percent to 502,400 units while exports of commercial vehicles fell 18 percent to 41,400 units.

Enters 'Era of Economic Pragmatism'

### Fed Confirms Credit Tightening Policy

NEW YORK, April 21 (AP-DI)—The Federal Reserve gave ta-cit confirmation yesterday that it funds, uncommitted reserves banks had tightened its credit reins when it failed to take steps to reverse the upward shift in short-term rates that began Wednesday. [Fed chairman William Miller

confirmed policy was being right-ened to mudge interest rates up, the Chicago Tribune quoted him as saying in an interview. He said the move was part of a coordinated government strategy against rising inflation and the fall of the dollar over the last 10 days.

Several analysts said the surprise credil tightening move probably reflected a basic change in the way the Fed reaches policy decisions. David M. Jones, an analyst far Au-brey G. Lanston, said the action in-dicated the Fed is entering an "era of economie pragmatism," - under its new chairman, William Miller.

in the past, the Fed had generally waited until major changes in fore taking any action to change policy. But the lalest move, Mr. Jones said, indicated the Fed was acting on signs that the economy was prepped for "e very strong rebound in the economy," and that there was a danger of building inflationary pressures.

In the way policy was deter-mined previously, there would have been little basis for tightening credit at this time. In the past three months M-I has grown at only a 4.9 percent annual rate, well within the Fed's longer-term target range. 1,280.00 Late yesterday, the Fed disclosed 38.54 that the basic money supply, 1.38 known as M-1, surged \$2.1 billion in the lates! week. The big increase followed relatively sluggish money growth in the past few months. In its credit tightening move, the

### U.K. Allows Brokers To Join EOE Market

LONDON, April 21 (AP-DI)— U.K. stockbrokers will be permit-ted to join the European Options Exchange (EOE) in Amsterdam. The legal problems that had blocked U.K. firms from joining the EOE have been resolved, a spokesman for the Trade Depart-

ment said today. EOE officials have cited the absence of British brokers as the main reason for the light turnover since the market opened April 4.

funds, uncommitted reserves banks lend each other. The rate on such funds gives an indication of the availability of reserves in the bank-

reserves from the banking network al a time when federal yesterday, when the Fed made no overt effort to supply reserves as funds pressed some analysts believe the Fed

may push the rate even higher. "Il may be only a temporary plateau," warned Lawrence Kudlow, of Paine, Webber, Jackson & Curtis.

Specialists said that in the past the Fed would have waited until an economic rebound was actually re-flected in a ballooning money sup-ply. Mr. Kudlow applauded the change in strategy. If the Fed in action in anneipation" of economic changes, "it will get a leg up on tempering inflation," he said. Mr. Kudlow noted that in the

past two months business credit at the nation's large banks has been growing at a torrid 22.6-percent annual rate. "It's only elementary economics that the money supply growth will catch up," be said.

In figures released yesterday, the Fed said that commercial and in-

dustrial loans on the books of the leading New York banks dipped \$139 million in the week ended Wednesday. That compared with a decline of \$44 million the previous week and a fall of \$97 million in the 1977 week.

ing network and provides the Fed a guide in carrying out policy.

On Wednesday, the Fed hinted that a credit tightening was in process when it moved to drain **Optimism Among Businessmen** Found to Be Fading in the U.S. DJ)—U.S. businessmen continue to be more optimistic about prospects for their own industries than far

the general economy. But even in their own areas, their optimism has

faded somewhat in the past year.

Those are among the findings of the latest quarterly survey of business confidence by the Conference Board, a business research organization based here. The board's overall measure of business confidence, including executives' appraisals of the economy and their own industries, stood at 52 in the first quarter, unchanged from the previ-

> In the past year, however, the survey's measure of businessmen's views of their own industries declined by 11 points. Every industry

group showed a decline from the scores of a year earlier. Conference Board afficials said the findings may be more positive

than they appear to be. "Economie

NEW YORK, April 21 (AP- activity in early 1978 was dampened by unusually bad weather and the coal strike, both of which probably also affected husiness attitudes," an analyst said.

### Emminger Sets Record Straight

FRANKFURT, April 21 (Reuters)—The U.S. Federal Reserve has intervened to support the dollar on a larger scale than the Bundesbank since the beginning of the year, Bundesbank president Otmar Emm-

inger said today. Although he did not specify intervention volume, the central bank bead told a meeting of financial jouroalists here he wished to correct a commonlyheld view that the United States bad done little to help the dol-

### Seiko LC Digital Quartz Multi-Alarm. Easy-to-operate. Versatile. Convenient.

# Fed Watchers Still Puzzling Over Miller

By James L. Rowe Jr.

WASHINGTON (WP)—Wash-ington is still not sure what makes William Miller run. When President Carter nominated him in late December to replace Arthur Burns as chairman of the Federal Reserve Board a sigh of relief went up from the liberals.

They felt he was not so scared of inflation that he would use tight money policies to thwart congressional attempts to stimulate eco-nomic growth and reduce unem-ployent, something they accused Mr. Burns of doing. Neither Mr. Miller's record as a socially active executive nor his comments immediately after his appointment did anything to dispel that notion.

But with amazing case, he has donned the anti-inflation mantle which Mr. Burns wore in public so frightfully often. As soon as he was sworn in he was worrying about the sudden surge of inflation and the deterioration of the dollar and cautioning that inflation needs to be stressed more than unemployment. Last week he was calling inflation not merely a serious problem but a national emergency.

Some obervers are distressed that he seems to have adopted the con-cern with price stability which all central bankers share. Others are not so sure. House Banking Com-parities chairman House Banking not so sure. Flouse banking committee chairman Henry Reuss, D-Wis, thinks Mr. Miller's concern with inflation and the need for government. ernment and the private sector to right rising prices reflects his desire to keep the Fed from being the only inflation fighter in town.

It is too early to tell whether he

will follow the Burns approach to monetary policy. That policy—lib-eral protests notwithstanding—was not a particularly austere one. Mr. Burns frequently wagged a finger at

inflationary, but the monetry policy he pursued was for the most part
liberal and nften inflationary.

In his brief term in office, Mr.
Miller has adopted more than his
predecessor's inflation rectoric

### Iceberg Water Feasible In 2 Years, Prince Says

By Youssef M. Ibrahim

NEW YORK, April 17 (NYT)—Saudi Prince Mohammed al-Faisal, who conceived the idea of tugging a 100-million ton iceberg from Antarctica in Saudi Arahia, says he will be ready to deliver icebergs to any customer within two years. His Paris-based Iceberg Transport International had completed much of the feasibility study involved in the

project.
The 41-year-old son of the late King Faisal and nephew of the reigning King Khalid, said he was convinced his plan would yield more sweet water, at less cost, than the country's \$15 billion desalination program. He engineered and supervised that program until he esigned as desalination chief nine months ago.

Seven tugboats would pull the experimental iceberg, which would be up to a mile-long, 1,500 feet wide and 1,000 feet deep. He described it as a frozen mass of "the sweetest water on earth." Icebergs of this size and larger break off naturally in Antarctica and can be hooked up and

tugged in any location, he said. His company's research, which involved French and American scientists, was close to devising a way to protect and preserve an iceberg during the six-to-eight-month journey of about 5,700 miles to Saudi Arahia. "We have devised a belt made of cement columns and a plastic mesh screen to be wrapped around the iceberg." This would prevent the ice mass from melting too quickly by trapping cold water around

"It will also shield it against a bigger problem—friction as it slices

Prince Mohammed said iceberg water would cost Saudi Arabia less than water extracted from the sea . "Our biggest desalination plant at Jubail cost \$5 billion and will give us 200 million tons of water a year." By contrast a standard billion-too iceberg should yield twice the water, and cost about \$150 million to tug to Saudi Arabia.

"What it comes down to is that I can sell sweet water for 50 cents a gallon and we are now paying over \$1 a gallon for desalted water."

Administration. Already he has called for unilateral Presidential action to curb oil imports unless Congress acts soon on the Energy Bill, has criticized the President's proposed tax cut as being too big and suggested its effective date should be delayed, and has said he favors rescinding some social security tax increases which Congress voted into effect last December and now may decide to roll back under beavy political pressure. He also wants the Government to under-take a broad program aimed at structural unemployment.

Some administration sources say, however, that there is no concern at the White House or the Treasury with Mr. Miller's outspokesuness. "Maybe he hasn't yet learned that every word a Fed chairman utters is hung on," one official suggested. But another was upset: "He's got to learn be can't shoot his mouth off

### **U.K.** Allows Brokers To Join EOE Market

LONDON, April 21 (AP-DJ)— U.K. stockbrokers will be permit-ted to join the European Options Exchange (EOE) in Amsterdam.

The legal problems that had blocked U.K. firms from joining the EOE have been resolved, a spokesman for the Trade Depart-ment said today.

EOE officials have cited the absence of British brokers as the main reason for the light turnover since the market opened April 4. Almost no business has been done in the three stock options listed on U.K. shares—British Petroleum, Imperial Chemical Industries and General Electric Co. of Britain.

### De Beers Will Continue Surcharge at Diamond Sales

world's main marketer of diamonds taling well over 2 million carats through its Central Selling Organi-ration, said today it has informed kept on hand, according to Chaim its customers that, "until further notice," a surcharge will be im-posed when it bolds its sales because of continued speculation in the diamond market.

ERY N

ar. Inter

le m

The amount of the surcharge will he determined at the time of each sale, it said.

"Insofar as diamonds may not be aken up by customers on account De Beers—the South African of this surcharge, it should result in a reduction in the stocks held in the cutting centers and so help to make the trading situation sounder," chairman Harry Oppenheimer said in the company's annual report.

Danieli, managing director of Israel's Diamond Manufacturers Asso-

However, he denies the country has tried to corner the diamond market-driving up prices in the process—as many in the industry have charged. High prices for rough diamonds is one of our big

company that mines diamonds as well as markets them for most of the world's other producers through the CSO-imposed a 40percent surcharge on the price of rough diamonds at its sale March

Meanwhile, in Tel Aviv, a key 27. The next sale will be May 2 center for cutting and polishing the Mr. Oppenheimer said that de-

LONDON, April 21 (AP-DJ)— rough stones, stockpiles have mand for diamonds was at an un-De Beers Consolidated Mines, the swelled to a five-month supply toprecedented level, in spite of the price increases and the sale to the cutting centers of more carats than cutting centers of more carats than ever before."

He added that "this speculation reflects an increasing use of dia-monds, not for jewelry, but as a store of value and it is reinforced by fears about the instability of currencies, particularly the U.S. dollar and Israeli pound."

In 1977, Israel's imports of rough diamonds totaled 11.2 million carats, including 46.4 percent from the CSO. However, polished-diamond exports amounted to 3.4 million carats, representing only 29 percent of Israel's imports. For comparison, in 1975, Israel imported about 5.8 million carats, 53.4 percent from the CSO, and exported roughly 2.7 million carats, or 46 percent of imports.

"When there's a shortage, people

But Mr. Oppenheimer says stocks in the cutting centers are "unduly high" and to a large extent are being financed by bank credit "The dangers of such a situation should there be any downturn in the market need no emphasis," he

Mr. Danieli insists that Israeli manufacturers huy more than half their diamonds at "secondary" open-market sales in Belgium, the United States and elsewhere, and they have had to pay premiums of 70 percent or more above De Beers prices to get the stones they wanted, thus indicating that the manufacturers in Israel are not speculating by buying wholesale diamonds at De Beers' sales.

# The Management of Foreign Exchange Risks.

How to handle currency exposure in multinational business. The second working conference sponsored jointly by the International Herald Tribune and Forex Research Ltd.

If you're involved in international business, the second IHT-Forex conference on the management of foreign exchange risks will give you the kind of practical information you need to solve the foreign exchange related problems you encounter daily.

– You'll gain valuable insight into the present and future positions of four of the world's major currencies.

– You'll learn how corporate financial officers from both parent companies and subsidiaries handle their foreign exchange exposure.

Karl Otto Pohl, Vice President of the Deutsche Bundesbank, will speak on the mark. Christopher McMahon, Executive Director of the Bank of England, on sterling. Michiya Matsukawa, Japanese Vice Minister of Finance, on the yen. And Anthony Solomon, U.S. Under Secretary of the Treasury

for Monetary Affairs, on the dollar.

Balance-sheet exposure will be discussed by treasurers from Kraft, Rank Xerox, Singer, Ciba-Geigy, Sperry Rand, British Petroleum and Imperial Chemical Industries. Plus how to cope with FASB8 from Arthur Andersen, and case studies presented by Morgan Guaranty.

Bankers from Crédit Suisse White Weld, Dresdner Bank, First Chicago and Lehman Brothers Kuhn Loeb will discuss domestic versus multinational banking.

And Professor Robert Triffin will speak on the future of floating exchange

A main point of interest will be the exchange rate and interest rate forecasts for 1978. Be sure your company is represented. Complete and return the registration form below today.

severed. It is highly realistic, too; in order to explain exactly how it hap-pens, one would have to sum up

dozens of plot details, all the way

down to why the knob on a Volvo's

It is ool the first time we have laughed for what seem inappropri-ate reasons, oor will it be the last. In fact, we find ourselves laughing In fact, we find ourselves laughing throughout "The World According to Garp," and at some of the damndest things. We laugh at Garp's father, Technical Sergeant Garp (hence his son's name, T.S. Garp), who is hit in the hrain by shrapnel during World War II and dies of regressive infantilism. We laugh at Garp's mother, Jenny Fields, who becomes a feminist leader simply because she prefers leader simply because she prefers to live without men. We even laugh at a group of Jenny's followers, the speechless Ellen Jamesians, who have mutilated themselves out of sympathy for Ellen James, a 10year-old girl who has been raped

and had her tongue cut out.

1 know. Rape and mutilation aren't the least bit funny. Nor are brain damage and automobile colli-sions. Nor, for that matter, is a former football player for the Phila-delphia Eagles oamed Roberta Muldoon who has given up professional foothall to become a transsexual. Nor is the "First Fem-inist Funeral," held for Garp's mother after she has been assassinated by a crazed anti-feminist deer hunter, which funeral Garp attends in drag because no men are to be admitted, and then gets mugged when he is recognized by the younger sister of a former girl friend. At least these things oughi not to be funny. Still, the way Irving writes about them, they are. The way he filters them through his hero's unique imagination, we not only laugh at the world according to Garp, hut we also accept it and

love it. How can this be? How does Itving pull it off in what is easily his book reviewer for The New York best novel to date? (The earlier Times.

THIS is not going to be easy to explain. At the climax of John Irving's fourth novel, "The World According to Garp," a truly horning automobile section occurs.

Bongs are broken flexible to cours.

himself in a letter he writes to one Irene Poole, who has written him to say that she has read one of his novels and that "you don't have any problems so you can make fun of poor people who do!" (This is of poor people who do!" (This is one of many mini-reviews in the story that could be turned against "Garp" itself if Irving did not so consistently win us over. In response, Garp writes to Mrs. Poole that "serious" and "funny" are simply different ways of seeing the same thing, and that "I have nothing but sympathy for how people behave—and nothing but laughter to console them with. Laughter is my religion, Mrs. Poole," even though "my laughter is pretty desperate." (By the way, Mrs. Poole answers back, "You must be a sick man.") a sick man."

But more important than this rather pat explanation: The World According to Garp, for all its realism, is not a realistic novel. It is a novel about a writer writing novels—or, more precisely, about the way a sensitive human being communicates his response to reali-ty through the stories he makes up. And though extreme and violent things do seem to be happening around Garp, they can be read as the objective correlatives of Garp's rather fervid imagination. For instance, Chapter 13, in which Garp's 5-year-old son dies, is titled Walt Catches a Cold," so one way of seeing the boy's violent death is simply as a fantastic projection of Garp's anxiety about his son's ill-

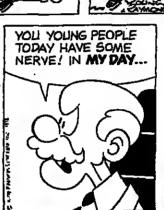

However you see it, between the imagioed event and mundane reali-ty that inspired its invention, there is room for laughter. What is ultimately funny about "The World According to Garp" is not the events themselves, but the imagination that is inventing them.

Not that the world Garp imagines is any more extreme than the one the reader knows is reality. It's just that we do not normally make the connections that Garp does. If we could only see ourselves as Garp sees his characters, our world might seem funny 100, even though it is filled with assassinations and rapes and mainings. What Irving has done is to take such extremes and treat them as if they were domestic routines. As the novel concludes. "...in the world according to Garp, we are all terminal cases." If we could so consistently see ourselves as terminal cases, we too might joke about and laugh at our

### Track Unit Won't Allow ITA Athletes Reinstated

INDIANAPOLIS, April 21 (AP)—The International Amateur Athletic Federation has ruled that athletes who competed as professionals with the International Track Association may not be reinstated as amateurs, the

U.S. Amateur Athletic Union announced today.

The IAAF is the world governing body for track and field. The decision was reached at the IAAF Council's meeting in Seoul, Korea, last week, according to Ollan Cassell, AAU executive director and an IAAF dele-

gate-at-large. Last August, the AAU said that U.S. track and field professionals, ineligible to compete anywhere since the ITA folded last year, could apply for reinstatement as amateurs.

At that time, an AAU spokesman said that approval by the IAAF was quesaonable and that the AAU proposal could "wind up a test case."

The ITA was founded in 1972 and included such track stars as Jim

Ryun, Kip Keino, Lee Evans, Bob Hayes, Bob Seagren, Randy Matson, Brian Oldfield and Rod Milburn.

The ITA faced small crowds and a general lack of interest and money from the beginning. Its last hope was signing the top athletes from the 1976 Olympics. When that failed, the association collapsed. Now, these athletes are "like men without a country," said the AAU's

Pete Cava. "They want to get back in competition, but because they have been professionals, there is no place for them to go." Cava said a number of the athletes took their case to Harold Heller, the

AAU national registration chairman. Then former Olympic marathon champion Frank Shorter, who is an amateur, approached Cassell on behalf of the professionals. Under the AAU proposal, remstatement would have been reviewed case-by-case by each athlete's local AAU registration committee, then

forwarded to the national committee for approval or denial. The national committee would then have turned each application over to the IAAF for The AAU action would have applied to just "a handful" of athletes,

Cava said, because many of them have retired. At the IAAF council meeting, Cassell had been prepared to submit the names of three former pros whom AAU registration officials believed should have been considered for reinstatement.

After the IAAF turned down the proposal, the AAU would not release the names of the three athletes because "it would not serve any purpose,"

Ray Williams, right, reaches for ball that is beyond grasp of 76ers' George McGinnis.

### 76ers Beat Knicks in 3d Playoff Game

NEW YORK April 21 (UPI)— Lloyd Free might just have well been back in one of Brooklyn's schoolyards. Only this time it was

Madison Square Garden.
Free, a 6-foot-2 gnard, scored 18 of his 29 points in the fourth quarter last night to send the Philadelphia 76ers to a 137-126 victory over

the New York Knicks and a 3-0 lead in the semifinals of the Eastern Conference playoffs.

10 of 16 shots from the field and keyed a fourth-quarter surge.

"All 1 aeed is room to get it up," No other NBA teams were in acsion yesterday and the 76ers can end the best-of-seven series when

game No. 4 is played at New York on Sunday, Coming off the bench, Free hit

### **Tripping Over Bloodlines** In the Stables at Belmont

By Red Smith

NEW YORK, April 21 (NYT)—Woody Stephens, who has been working with horses since Calvin Coolidge was in the White House and remembers them all, tiptoed through Belmoat Park's mnddy stable area, going nimble as a two-year-old colt. He said he was fit and, more important, so were his horses, meaning the Kentucky Derby candidates he will test today in the Wood Memorial at Aqueduct. The colts are Mrs. Jimmy Mills's handsome chestnut, Believe It, and Quadratic, who is owned by August Belmont IV. Believe It beat the Calumet Farms star, Alydar, in the Remsen last year but lost to him in the Flamingo and the Florida Derby during the winter. After winning minor stakes in Florida, Quadrat-ic was second in the Louisiana Derby and second in the recent Gotham

Yankees eight days ago, Haas set a Mile. club record when he struck out 14. "If they run well," the trainer said, "I'll send them both to Kentucky. Haas, in his first full season with I'm glad to have them in the Wood where everything carries 126 pounds the Brewers last year, had a 10-12 because we've been giving away weights all wiater. Believe It was giving away eight pounds when he lost the Fountain of Youth to Sensitive Prince, and Quadratic gave Slapjack nine pounds in the Gotham."

In the Fountain of Youth, it appeared that Believe It bore out after

taking the lead at the far turn and was leaning on Sensitive Prince. Eddie Maple told me he tonk him out to join the other horse," Woody

said. "Some said there would have been a foul claim if Believe II had won bul Eddie said there was no interference. He said the coll would do anything he wanted. Here's Believe II aow." Wearing a cooling blanket, the colt was walking under the shedrow.

"He's got a slouchy way of walking," the trainer said. "I'm told his sire, In Reality, was like that, would stumble over a straw. I guess in Reality's best race was against Dr. Fager at Rockingham."

That was the \$250,000 New Hampshire Sweepstakes of 1967 when the sensational Dr. Fager set a track record for a mile and a quarter on a strip described as "dead." In Reality slipped up inside the Dr. and took a ball-length lead but Dr. Faget went right after him and they raced aod-for-nod into the final 16th, where Dr. Fager drew away by a length and a quarter. Woody Stephens wasn't there, but he remembers.

The Wood annually serves as New York's final examination for Kentucky Derby candidates. Starters carry the Derby weight and go a mile and an eighth, which is one-eighth shorter than the Derby. In the last three years, Foolish Pleasure won the Wood and the Derby, Bold Forbes the Wood, Derby and the Belmont, and Scattle Slew wonthe Wood, Derby, Preakness and the Behnont for the Triple Crown.

This year, however, Believe It is the only one of the winter books' shortpriced Derby borses in the Wood. Affirmed, the first choice, is in California; Alydar is in Kentucky for next Thursday's Bluegrass Stakes; unbeaten Sensitive Prince won the Calumet Purse by 51/2 lengths in the slop at Keeneland on Wednesday.

That was Sensitive Prince's sixth straight score, and since he woa't start again before the Derby, he will take an extraordinary family record to the Post at Churchill Downs. His great-grandsire, Native Dancer, lost only the Derby in 22 races. Native Dancer's son, Raise a Native, ran and won four times. His son, Majestic Prince, the father of Sensitive Prince, lost only the Belmont in 10 starts. Thus the direct male line over four generations shows 40 victories for 42 starts.

Surprisingly, considering that it was his horse that started it all as a runner and as a sire, Alfred Vanderbilt wasn't aware of this family history until yesterday morning — possibly because he has been off in the Gala-pagos Islands lately looking at lizards. He was at Belmont watching Elliott Burch train his steeds, including Cold Reception, a three-year-old son of Secretariat from Vanderbilt's fine race mare, Cold Comfort. Unlike his showy red sire, Cold Reception is almost black, though he is

registered as dark bay or brown like his mother. He was a winner in Florida but had a rough trip recently at Aqueduct. "We were lucky to get him back in one piece," Burch said.

Mike Kennedy rode by oo a brown horse accompanied by a stable pony. "That's Seattle Slew," Elliott said, and paused to watch. "He's

looking a lot better than he was for a while." An exercise girl was aboard a horse in Burch's string. "She's Arthur

Brishane's granddaughter," Vanderbilt said. On the race track, one is forever tripping over bloodlines. At 10 a.m., the horses at Belmoat had finished their work and the

action moved to Aqueduct, where the draw for post positions for the I2horse Wood field gave Woody Stephens's pair a crackshooter's hand — a umber seven for Quadratic, 11 for Believe It.

### Valdes Makes 1st Title Defense

SAN REMO, Italy, April 21 (Renters)—Colombia's Rodrigo Valdes makes the first defense of his world middleweight title against Argentina's Hugo Corro here tomorrow. Corro, the South American champion and, at 24, six years younger than

the Colombian, comes from the same stable as his compatriot Carlos Monzon, who held the middleweight crown until his retirement last year. Valdes, previously recognized as champion only by the World Boxing Council, lost twice to Monzon but became undisputed world champion by outpointing Bennie Briscoe last November.

He is ready for a tough battle with Corro tomorrow. "I have never seen Valdes in better shape in the last three or four years." his manager, Gil Clancy, said today.

Apart from being outpointed twice by Monzon, Valdes has not lost a fight since 1970. He has 60 wins in 68 bouts over the last 12 years. But be is taking Corro seriously. "We can expect trouble," Clancy said.

"Corro's got a helluva record, he's lost only two fights out of 50." Corrro's manager, Tito Lectoure, confirms that his fighter is not here just to make up numbers and gives him a 50-per-cent chance of causing an

"His best weapon is his youth,"Lectoure said. "Valdes may well be tired out after many long and tiring years in boxing and hve lost the freshness that Corro shows."

# Free-Agent System Meets Need in NFL

NEW YORK, April 21 (UPI)—If the National Football League Players Association had wanted the Perhaps some football teams are kind of unrestricted free-agent movement now prevalent in baseball, it might have been sadly disappointed.

But that is not what it really wanted, says Ed Garvey, the union's executive director.

"First off, we fought for a num-ber of things," Garvey said yesterday, reflecting on the years of acri-mony that ended with the agreement achieved almost 14 months ago. Possibly the keystone was dignity. You achieve that by imparual arbitration, so if a player is treated unfairly he can have his day ia court rather than before the commissioner. We achieved that.

"Second, you eliminate some of the nastier practices of some of the clubs — things like racial prejudice. obnoxious lines — in the hope that you'll eliminate some of the reasons people waat to change teams. We

"Only then do you start to get down to the question of whether a system is going to work or not," he

The old one did not. Under it. commissioner Pete Rozelle decided compensation if the two teams couldn't agree. Sometimes players were shipped from one team to another unwillingly.

Under the present system, the loss of a quality player via the freeagent route can result in compensaion, one or more draft choices from the player's aew team. Base-

Perhaps some football teams are shyiag away from trading away the future to improve the present. Or perhaps a lot of players just don't want to go anywhere but are just

checking to see how much others think they're worth. "Most players do not want to move from team to team," Garvey said. "It's a short career in football, shorter than any other sport. Most players are fighting to keep their jobs where they are ... most do not want to move even those who play ont their options."

If a player does not change teams, it is probably because his present team matched the salary offer he got from another one. If he did not get one, he can stay where he is and get at least a 10-per-ceat

"So a lot play out their options so that, instead of a potential 10-per-cent decrease in pay, the way it used to be, they're getting a 10-per-cent increase. That's a 20-per-cent differential. It's contributed to a larger number of players playing

out their options."

Terry Bledsoe, assistant executive director of the NFL Management Council (the owners' group), sees things the same way. "The system we set out to create and wound up creating." he said, "allows the player to get into the market and measure his value, which is good for the player, and one which allows him to do so without having to lows him to do so without having to move from his club, which in many cases is good for the player and ia almost all cases is good for the club."

### **Cardinals to Protest Deal Sending Otis to Redskins**

ST. LOUIS, April 21 (AP)—The avenues," Cards owner Bill Bidwill St. Louis Cardinals will formally said in St. Louis. "This is all a protest a five-year contract offered free agent fullback Jim Otis by the Washiagton Redskins, it was learned vesterday.

The protest, it was learned, will be in the form of a grievance under provisions of a collective bargaining agreement signed last year be-tween the National Football League Players Association and the

the salary structure of a Redskins offer which would pay the 29-year-old Otis \$299,000, exempting them from compensating his current But while the offer is under a

\$60,000 average pay figure requiring third-round draft compensation for signing a ninth-year player, the Cardinals contend, the contract is invalid because of its terms for its final two years. A source ia Washington said that

der the Redskins' contract. But, ac- just want to stay out of it. cording to the bargaining agree t to the bargaining agree pay during the final two years is \$32,000. In New York, Management

Council official Terry Bledsoe described the grievance procedure as a means left open to St. Louis for

having the Otis contract declared invalid.

"We don't want to issue a statement until we've explored all

precedent. Under terms of the new collec-

tive bargaining agreement, more than 100 NFL players played out their options last year and sought offers from other teams. The Cardinals, under another provision, have until midnight Monday to match ! Washington's offer and keep Otis.

"The bargaining agreement didn't anticipate this kind of dis-NFL Management Council.

Challenged by the Cardinals is pute, but it did anticipate problems." Bledsoe, the NFL Management Council's assistant execu-tive director, said in New York, "It said that when there is a dis-

pute for the parties involved to try to work it out. If that doesn't succeed, then the hargaining agreement provides that a grievance should follow."

Otis said in St. Louis that "my attorney [Richard Bennett] has said that it [the contract offer] is valid."

A source is Washington said that Otis would receive \$80,000 this year and next. \$79,000 in 1980 and \$30,000 in both 1981 and 1982 un-

Cards to Keep Davis

ST. LOUIS. April 21 (AP)—
The Cardinals said yeslerday that
they have matched a contract offered free agent defensive tackle
Charlie Davis by the Denver Broncos and will retain the defensive lineman under provisions of the National Football League's collective bargaining agreement.

### Spinks Is Arrested on 2 Drug Counts

Spinks was released on \$3,700 bond today after his arrest on sus-pected drug violations and failing to produce a driver's license.

he said. "I don't care who's guard-

ing me. In fact, it's better with peo-ple hanging one me. That's the way I played in the schoolyard, and it

George McGinnis and Julius Erving, Philadelphia's aerobatic forwards, bad matters of their own

McGinnis finished with 29 points and Erving 28 as the 76ers took a 72-65 half-time lead and ex-

tended it to 103-93 after three peri-

ods before sealing it in the fourth quarter. Doug Collins, providing good movement, added 21 and Steve Mix contributed 12, includ-

ing 10 in the second quarter.

Knick center Bob McAdoo, who

scored a total of just 22 points in the first two games, had 29 before

the sellout crowd of 18,697. Spen-

cer Haywood, who was going at it

all game with McGinnis, finished

with 20. Lonnie Shelton added 18 and Butch Beard 16.

### The End Is Near

VV news from outer space is that our universe has just 90 billion years of existence left and then it will explode in a great big bang. This bleak prediction has been made by scientists who have been studying where the universe is and

where it's going, Their prediction is that for the oext 40 billion years the universe will expand. Then it will begin to shrink back until the stars, planets, dust and black holes will be so close they'll close they'll go BANG, and the

This is the kind of information I like to drop at a cookout, It can make almost everyone's evening. But more than that, you find oot how people really react under pres-

Templeton, a British chap with the World Bank, was eating an ear of corn when I told him the news.

He said, "I thought I read in a Ralph Nader newsletter that the too?" earth would expand for 50 billion years and then contract for 40 hillion.

"He got it wrong," I said. Templeton said, "Nader's getting terrihly sloppy with his facts. f think his staff is overexpanded. That 10 billion years could change everything down at the bank." "How's that?"

"Well, we certainly would not want to make long-term loans if the universe is going to explode before the Third World countries have a chance to pay us back."

Farley, a stockbroker, was chewing a chicken leg.
"If you want my opinion," he

### Mrs. Carter Plans Trip

WASHINGTON, April 21 (AP)—Rosalynn Carter will head a U.S. delegation to Costa Rica for the inaugural ceremonies for President-elect Rodrigo Carazo oo May 8, the White House announced.

WASHINGTON—The latest said, "I'd buy soybean futures for news from outer space is the next 40 billion years and then get out. You don't want to be stuck with a lot of contracts if the whole thing is going to blow up on you."
"Where would you put the prof-

its of your soybean futures?" I "Tax-free municipal bonds.

They're oo good when the universe is expanding, but it's a nice safe in-vestment when everything starts shrinking." Simpson, who was drinking a

beer, turned to his wife. "You see, I told you it's not worth cutting the lawn," he said. "Every weekend you have me out there moving the stuff and in 90 hillion years it will all be dust.'

Cynthia Simpson said, "You'll always find some excuse not to do yardwork. Suppose the scientists are wrong and the world is not going to end with a bang. All the neighbors will hate us."

A man from the CIA, who refused to give his name, said, "The question is oot whether the universe will blow up in 90 billion years but who is behind it?" "Do you thick it's the Russians?"

"They would have the most to gain if the universe goes BANG!" "But won't they go up in smoke,

"The Russians don't think that way. If they know that we know when the explosion will occur, they might try to move up their space program to get their people out of way until the gasses have cooled off. Then they would take over everything."
"Including the Panama Canal?"

some asked. "Especially the Panama Canal."

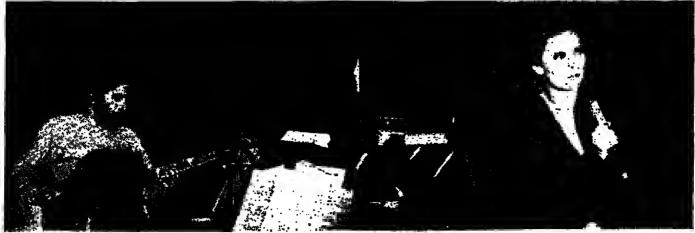

It was a sobering thought and people stopped eating.

Later on, as f walked oear some bushes, I heard Wilson talking to

someone. "Look, if we've only got 90 billion years left let's do some-thing about it."
"But suppose Harry finds out?" a frightened woman's voice said. You love me, you don't love Harry. Time is of the essence. Let's take our happiness while we can. This proves what George Allen, the

former coach of the Washington Redskins, always said," "What's that my beloved?"

### MARY BLUME.

Ingrid Caven during a performance at Paris cabaret.

### Ironic Potpourri of Cliches and Dreams

PARIS (IHT)—The nightclub scene in Paris is a new mix: Toughs, gays and fashionable night owls who used to have their own special haunts now mingle in modishly sleazy joints such as the Main Bleue in a working-class suburb or the Palace on the grands boulevards.

What was missing is what used to be called a supper club, a small boite featuring one singer. This week, Yves Saint Laurent's right-hand man, Pierre Berge, filled the gap by opening Pigall's, a pink-plaster ex-nude-show spot off the sympathetically sordid Place Pigalle. Judging from Berge's gnest list, which included Roman Polanski, Joliette Greco, Marie-Helene de Rothschild. Alain Resnais and Regine, Pigall's is off to a flying start despite the fact that customers have to look at a show rather than at themselves. The singer is the German actress Ingrid Caven, whose appearances in the films of Rainer Werner Fassbinder have made her something of a cult figure among Paris intel-

"Her reputation will frighten some nightclubbers but it will hring in others who are intellectuals, and the marginal people," Pierre Berge says. Marginals are the backbone of the new Paris by night.

Ingrid Caven's act is a slightly ironic version of everyone's dream of an old-style Berlin cabaret—smoky, rancous, sexy, bitter. But anyone who expects to hear her sing "Falling in Love Again" may as well forget it. While she does do an old Greta Keller number in raunchy tango time, ber repertoire includes several songs by Fassbinder, including "All in Leather," "Acne Vulgaris" and "The Streets Stink," the somber lament of a woman whose man has gone off with another guy.

She also does some sentimental ballads,

Gounod's "Ave Maria" in Latin, and Damia's old staple "Les Goelands," which is preceded by a few bars of Beethoven and followed by a snatch of "The Internation-

ale."

This program is a potpourri of cliches, dreams, love false and true, done with humor," Ingrid Caven says. There is a strong element of what she defines as kitsch. Kitsch is emotions put into formulas, f don't make fun of that, I use the conven-

tions to say other things." Many of the songs are by Peer Raben, who scores Fassbinder's films. Another chum, the film director Daniel Schmid, whose "Violanta," starring Ingrid Caven, has just opened in Paris, has staged the cab-aret act ingeniously, and it is lighted—brilliantly—by Roger Ragoy, who has worked with Robert Wilson.

Ingrid Caven, small, vixen-faced, wearing a backless black Saint Laurent and flaming red hair, has only done cabaret once before, two years ago in Munich. She is very, very

"It's not just work, it's a whole oew life. I oever used nne of these before," she said, waving a long black cigarette holder with some aplomb. Ingrid Caven was waiting for Daniel Schmid in bring her the Biggest Mac he could find in Pigalle. She is intense, avid, quick, comfortable; she likes the words daring and strength. Her act has many of the qualities of Fassbinder's films—intelligence, flash, tough-mindedness, and deliberate theatricality.

The daughter of a tobacco-shop keeper in Saarbrucken, on the French border, and the sister of an opera singer, Ingrid Caven was a student teacher, then went to Munich, where Fassbinder was beginning his Anti-Theater

group.
"In '67, '68, '69 it wasn't hard for people with the same political and artistic ideas to meet. There is less sense of community amoog the young now. We made a lot of mistakes, but we made them together. Now people make them alone, which is harder.

We went through a whole experience together, we still have strength from that."
In 1970, although Fassbinder's homosexuality has never been a secret, he and Ingrid

Caven were married. "It was perhaps a way of saying we love each other just the same," she says. "Also, at that time it wasn't in vo-gue to get married." If there is a strong strain of modishness in

their world, there is also an engaging ambi-tiousness and a doughty professionalism. "One shouldn't throw oneself at people. People aren't stupid, they should have the opportunity and the naivety to react direct-

ly. I want to please, but not in any which

way."
Since January, she has lived in Paris, where she intends to spend two years. "After that I want to go to Los Angeles, which is the strangest town I've ever seen," she says. "I wanted to change my life. You get into habits. You can change the little things, like what you eat for breakfast. The great duties remain.

"I doo't think you can change things with art, but I don't want to dupe people. I don't want to underline stupidity. Beyond reality there are dreams."

there are dreams."

She may have dazzled Parisians ("The pale eyes of Ingrid are the colors of incurable oostalgia," claims a writer for Le Monde) but she does not like to be labeled an intellectual: "I don't like the idea of isolating the head, of big ideas that replace old gods." gods.

She prepared her cabaret act while playing Miss Julie on the stage. When she first sang in Munich two years ago, it was an

experiment.
"I coticed that people were irritated and a little attracted, It worked.

I am very selfish; I want to remain clear and spontaneous in my life. I have the oeed, the duty, to create. And if I have the opportunity to do so, I mustn't lie."

# PEOPLE: Gypsy Rose Lee's G-String Fetches \$500

A London banker who wishes to remain anonymous bought Gyasy Rose Lee's mink G-string for \$500 at an auction in New York, but many of the late, great stripper's working clothes went to presentday practitioners of the art. The clothing worn and shed by Miss Lee onstage, as well as offstage gowns, pink satin underwear and even her furniture, were sold in spirited bidding at the Plaza Art Galleries. Belly dancer Myrna Balsam paid \$400 for Miss Lee's gold-sequined G-string. Hope Diamond, a tall redhead starring in a burlesque revival show, got a beige strip dress completely covered in bugle beads, pearls and mirrored disks for \$100. Miss Diamond also bought for \$50 a black satin dress that Miss Lee made berself for offstage wear and said she planned to turn it into a working dress with the addition of a few zippers. "This is preserving a little culture, you be should be worn," said know. They should be worn," said Miss Diamond, who added that she agreed with Miss Lee that it's not bow much you take off, but how you take it off.. "We're corn, oot porn." she added. "We ooly play dinner theaters in the suburbs oow. Were too clean for the city."

President Carter and his wife, Rosalynn, were depicted as "outraged" by a newspaper report that a Secret Service agent stole a trophy and gave it to their daughter, Amy, after she lost a track-meet relay race. "There is a sense of outrage throughout the White House," said Mary Hoyt, press secretary to the first lady. Ear, a widely read gossip column in the Washington Star, reported that after Amy, 10, lost to the track meet last week, she began to cry and told a Secret Service agent she wanted a tropby. According to the column, which is nationally syndicated, the agent walked over to a table, took the gilt trophy and presented it to Amy. Diana McLellan, who writes the gossip column, said that she had checked with her sources and stands by the story, "All I know is what I get from the kids," she added. Jack Warner, a spokesman for the Secret Service, said that he had checked as the Acceptable of the secret Service. checked with Amy's Secret Service detail and that all agents involved denied the report.

Former President Gerald Ford has been attending a hospital pro-

Gypsy Rose Lee ...in 1964

gram on drug and alcohol dependence to gain a better understanding of his wife's current treatment for overmedication, the Los Angeles Times reports. He has been attending seminars and other educational sessions this week at the Long Beach Naval Hospital, where Betty Ford is being treated for dependence on drugs she takes for acute arthritis, said Ford's executive assistant, Bob Barrett. The former first lady was admitted April 11. Barrett said that Ford was attending selected portions of "a basic program that doctors go through."

Declared "as healthy as a horse," Billy Carter has been discharged from a hospital in Americus, Ga, after several days of medical tests. Dr. Paul Broun said President Carter's hrother was fit to resume his appearances on the celebrity
